

BASIC PROGRAM INFORMATION

Program Review is about documenting the discussions and plans you have for improving student success in your program and sharing that information with the college community. It is also about linking your plans to decisions about resource allocations. With that in mind, please answer the following questions.

Department Name: THEATRE ARTS

Division Name: FINE ARTS AND COMMUNICATION

Please list all team members who participated in this Program Review:

Name	Department	Position
TOM GOUGH	THEATRE ARTS	FT FACULTY
BRUCE MCLEOD	THEATRE ARTS	FT FACULTY
JANIS BERGMANN	THEATRE ARTS	FT FACULTY
MILISSA CAREY	THEATRE ARTS/MUSIC	FT FACULTY

Number of Full Time Faculty: 3.2

Number of Part Time Faculty: 1.2

Please list all existing Classified positions: *Example: Administrative Assistant I*

Box Office Manager

List all programs covered by this review and indicate the program type:

	☐ Certificate	☐ AA / AS	☐ AD-T	☐ Pathway
	☐ Certificate	☐ AA / AS	☐ AD-T	☐ Pathway
	☐ Certificate	☐ AA / AS	☐ AD-T	☐ Pathway

SECTION 1: PROGRAM DATA & ENROLLMENT

1A. Transcriptable Program Data: Data will be posted on Institutional Research's [website](#) for all measures except non-transcriptable completion. You must manually copy data in the boxes below for every degree or certificate of achievement covered by this program review.

Transcriptable Program	2013-2014	2014-2015	2015-2016
AA Theatre Arts	4	6	7
AA Theatre Technology	0	2	4
ADT Transfer Theatre Arts	0	0	1
CEA Theatre Technology	0	1	0

1B. Non-Transcriptable Program Data: Please provide any non-transcriptable completion data you have available. Institutional Research does not track this data; you are responsible for tracking this data.

Non-Transcriptable Program	2013-2014	2014-2015	2015-2016
Actor Training Certificate Career Certificate	0	0	9
Theatre Technology Career Certificate	1	2	4
Theatre Production Organization Career	0	2	0

Certificate			
-------------	--	--	--

Please provide the rationale for offering a non-transcriptable program and share the most recent program completion data available.

Theatre Technology is a CTE program. The career certificates prepare students for entry level jobs in the theatre industry. In addition to newly matriculated students, they are useful for returning students who are seeking additional career oriented training in the field, having already received Baccalaureate degrees in other fields. The certificates are difficult to track since not all students who complete the classwork apply for the certificate. The Actor Training Certificate is a precursor for a performance option of the AA in Theatre Arts for students who wish to specialize in this area but are not interested in transfer or degree options at this time.

1C. Department Level Data:

	2013-2014	2014-2015	2015-2016
Enrollment	833	1026	809
Productivity	439	420	353
Course Success	88%	87%	85%
Full-Time Load (FTEF)	2.2	3.4	3.2
Part-Time Load (FTEF)	1.1	0.5	0.4

1D. Enrollment Trend:

Program Enrollment (Over Past 3 Years): ☐ Increase ☐ Steady/No Change ☒ Decrease

1E. Course Success Trends: Please describe course success trends for the following student groups and compare the program-level data with the college-level data.

	Program-Level Trend			College-Level Comparison		
	Increase	Steady/No Change	Decrease	Above	At Level	Below
African American	☐	☒	☐	☐	☒	☐
Asian	☐	☐	☒	☐	☒	☐
Filipino	☐	☒	☐	☒	☐	☐
Latino/a	☐	☐	☒	☒	☐	☐
Native American	☒	☐	☐	☒	☐	☐
Pacific Islander	☐	☒	☐	☒	☐	☐
White	☐	☐	☒	☐	☒	☐
Decline to State	☐	☒	☐	☒	☐	☐

1F. Course Success Demographics: Please compare the program-level course success rate data for the following student groups with the college-level data.

Male: ☐ Above Level ☒ At Level ☐ Below Level
 Female: ☒ Above Level ☐ At Level ☐ Below Level
 <25 Years Old: ☒ Above Level ☐ At Level ☐ Below Level
 >25 Years Old: ☒ Above Level ☐ At Level ☐ Below Level

1G. Equity: One of the goals of the College's Student Equity plan is to close the performance gap for disproportionately impacted students, including African-American, Hispanic/Latino, and Filipinos/Pacific Islanders. If the course success rates for these students (or other groups not listed above, such as foster

youth, veterans, and students with disabilities) is below that of the College, what is your program doing to address this?

In general, course success rates overall and in every disaggregated group are either at or above similar college-wide rates, in many cases significantly above. The small class sizes and the cooperative nature of many of our courses create an environment that fosters student engagement and student success. Enrollment data shows the program with fewer enrolled minority students with a correspondingly larger percentage (44% to 29%) of white students than college-wide enrollments. There is, however, a considerable achievement gap between African American students (64% success rate) and all other measured ethnic groups (82-100%). Part of this may be the lack of any significant number of enrolled students in this group. In this regard, we have an opportunity to join a network of colleges and universities in Northern California working with the internationally reputed The Acting Company. They are spearheading a new outreach program to provide a series of workshops as well as two touring productions over the course of four terms. We would look to make these workshops and shows available to the local high school students at no extra charge in an attempt to attract our feeder schools to our program, while also providing substantive, meaningful augmentation to our current students. There is also the possibility of some cross-pollinating benefit to Humanities and Language Art students. In addition to increasing enrollment we need to develop ways to support these students through cohorts or other campus support services. Overall online course success rates are 9% below the college as a whole (67% vs 76%). Minority achievement gaps are more prevalent here also, although sample sizes are small. We are exploring various options to raise online success rates that have shown success in other disciplines; early contact, minimizing late adds, early identification of students at risk, more aggressive interventions for struggling students. These and other measures should help move our courses closer to the college standard.

1H. Course Enrollment: If there are particular courses that are not getting sufficient enrollment, are regularly cancelled due to low enrollment, or are not scheduled, discuss how your program is addressing this.

Enrollment is clearly a huge issue and the department has struggled to address this over the past few years. A spike in enrollment in 2013-14; up 23%; was achieved at a cost to productivity and could be attributed at least in part to a 37% increase in the number of sections offered. This also masked the underlying trend of lower enrollments. While few classes have been cancelled due to enrollment shortfalls, overall we only average slightly more than 10 students per section taught. We are addressing low enrolled courses and fluctuations in enrollment in a few ways. The department recently completed a two-year schedule that includes more offerings of GE and degree core classes, fewer elective classes. The AA degree will be streamlined in this curriculum cycle to include fewer elective choices to create clear pathways for students. Scheduling will focus on core degree classes with fewer adjunct instructors, overloads and scheduling conflicts within the department classes. Department faculty have created new survey courses and moved others online in efforts to reach a broader student population. These efforts have been recently implemented in response to the ongoing enrollment instability. We are hopeful that these changes will be effective over the course of this year.

1I. Productivity: Although the college productivity goal is **535**, there are many factors that affect productivity (i.e. seat count / facilities / accreditation restrictions).

Program Productivity Trend: ☐ Increase ☐ Steady/No Change ☒ Decrease
 Program Productivity (Compared to College): ☐ Above Goal ☐ At Goal ☒ Below Goal

Please discuss what factors may be affecting your program's productivity.

Theatre Arts productivity has been declining consistently since repeatability ended, falling from 453 in 2012-13 to 353 in 2015-16. The department has only just begun to implement measures that might counter this trend. The true nature of the decline is further masked by the increase shown in the small number of online classes taught. Since 2012-13, there has been no reduction in the number of course sections taught, yet enrollment is down over 40%. In order to reach the college target, enrollment would have to more than double. Scheduling has not helped, with nearly the same number of sections taught last year as in 2012-13. Some minor effects may be due to continued changes in scheduling and instructors; all of the three full-time faculty members have been on PDL for portions of the last three years and adjuncts have been hired to teach potentially higher enrolled classes with minimal success. While several of the Theatre Technology courses; scenic production, make up, and costume construction, for example; are hampered by classrooms that can not effectively support enrollments much above 16, too many courses other courses are not achieving significantly higher numbers. The loss of program and course continuity has been substantial given the inability of the department to offer a consistent and sustainable schedule to students. Adoption of online instruction has lagged behind other campus departments, partly due to the interactive nature of theatre courses but also due to a lack of focus on the potential enrollment possibilities of these classes. Too often, additional courses have been offered that have diluted the pool of potential students in these classes.

If your program's productivity is below that of the College, please discuss your program objectives aimed at addressing this.

The department has recently streamlined the available course section offerings and completed a two year schedule proposal that will allow students greater certainty in their course planning and insure that all degree and certificate pathways can be completed in two years or less. This schedule will be released to counselling with the beginning of Winter quarter. All survey courses in the department; THTR 1, 8, 2A, 2B, 2F, 12A and 26; have been approved for online instruction and will be offered online on a regular basis. Several of these are GE approved and have the potential to draw students from a broader pool. The use of adjunct faculty has been largely eliminated except in very discipline-specific areas (costuming), back fill for PDL faculty, and new evening course offerings at Sunnyvale. The past year has seen the creation of two new survey courses, THTR 2F, History of Musical Theatre, and THTR 12A, Stage to Screen, both of which will be online and have the potential to reach a broader audience. A third course, THTR 26, History of Costume and Fashion Design, is being readied for the same treatment later this year. Finally, every FT faculty member will teach at least one high enrollment, online class each quarter in an effort to bring consistency of scheduling, enrollment and instruction to the department.

SECTION 2: COURSE COMPLETION & PROGRAM IMPROVEMENT

2A. Institutional Standard: This represents the lowest course completion (success) rate deemed acceptable by the College's accrediting body (ACCJC). The institutional standard is **57%**.

Program Level Course Completion:	☒ Above Standard	☐ At Standard	☐ Below Standard
Targeted Student Course Completion:	☒ Above Standard	☐ At Standard	☐ Below Standard
Online Student Course Completion:	☐ Above Standard	☒ At Standard	☐ Below Standard
In-Person/Hybrid Course Completion:	☒ Above Standard	☐ At Standard	☐ Below Standard

2B. Institutional Effectiveness (IEPI) Goal: This represents an aspirational goal for course completion (success) rates; all programs should strive to reach/surpass this goal. The IEPI goal is **77%**.

Program Level Course Completion:	☒ Above Goal	☐ At Goal	☐ Below Goal
Targeted Student Course Completion:	☒ Above Goal	☐ At Goal	☐ Below Goal
Online Student Course Completion:	☐ Above Goal	☐ At Goal	☒ Below Goal

In-Person/Hybrid Course Completion: ☒ Above Goal ☐ At Goal ☐ Below Goal

Please comment on your program's efforts to continually improve course completion (success) rates, especially for students with basic skills needs.

Program level completion and success rates are well above targets and show a minimal gap between targeted and not targeted students. This likely is a result of the smaller class sizes in many of the hybrid and face to face classes and the cooperative and project-based instructional style of theatre courses. Additionally, most of the courses are taught by full time faculty who are available and on campus for student interaction. Online courses are less successful and need additional attention. While enrollment and productivity have been excellent, reaching a high of 602 last year with fewer sections, success rates are 10% below the IEPI goal of 77%. Part of this may be attributed to teaching turnover in these classes due to scheduling changes. By the end of Fall 2016 all department full-time faculty will have completed Canvas training and successful techniques can be more readily discussed and implemented across the online courses.

The Foothill College Theatre Department faculty regularly reviews program and course success rates, along with many other program considerations, largely through department meetings, typically scheduled monthly. Higher student retention rates, typically a hallmark of the department, that lead to greater student success rates has intermittently been a featured topic of discussion at our various department meetings. The frequency of the issue of basic skills needs has not come up as regularly as topics of realigning the program's offerings to appeal to a broader student population and streamlining efforts to prepare students for successful degrees, it has been discussed in regards to how best to serve recognized individuals whose skill sets are not as developed as some others may be. In these instances, we have regularly discussed considerations that may benefit the student while not violating the integrity of the coursework. Instances of these anecdotal analyses are quite regular and in line with accommodations from the DRC where applicable.

If your program's course completion (success) rates are below the institutional standard (see above), please discuss your program objectives aimed at addressing this.

A more robust discussion of how to foster student success in online instruction needs to take place at the department level. We can probably do a better job of early identification of under-prepared students and aggressively steering these students towards available resources on and off campus. With the exception of online course completion of the IEPI goal--and even that isn't very far beneath the goal, the Theatre Arts Department's courses regularly have a completion rate well above both the institutional standard and the IEPI goal. Our program's objectives are largely in line with trying to maintain this track record and our online completion rate is not dissimilar if not slightly above the completion rate averages for the rest of the campus. We have recently made concerted efforts to increase our online presence and course availability by offering more online sections of more courses to a greater student population. This is a plan's effectiveness will likely need to await the results of some completion data. However, it is a concerted solution the department's faculty arrived at through pointed review and discussion of our offerings and how they need to change.

2C. Faculty Discussion: Does meaningful dialogue currently take place in shaping, evaluating, and assessing your program's Student Learning Outcomes (SLOs)? ☐ Yes ☒ No

Does meaningful dialogue currently take place around equity and course success rates? ☐ Yes ☒ No

If yes, in what venues do these discussions take place? (Check all that apply)

☒ Department Meetings ☒ Opening Day ☐ Online Discussions ☐ Other:

If no, please discuss what is missing and/or the obstacles to ensuring meaningful dialogue takes place.

Faculty teaching schedules have evolved in such a way that it is difficult to find times when all FT - faculty are available for these discussions. Some of this is driven by the demands of the production classes but the departments schedule has, like many others, deviated from the standard block scheduling leaving little time for faculty or student gatherings outside class. However, since the beginning of the calendar year, the department has resolved to conduct more regular meetings--and though schedules are compacted we have managed to meet, typically every three weeks when in session, to discuss a variety of department issues. Many discussions regarding online course content and viability has been addressed at these meetings. Going forward, these meetings will continue and we will look to broaden our scope of course reflections to the agenda.

2D. Course-Level: How has assessment and reflection of course-level Student Learning Outcomes (CL-SLOs) and course completion data led to course-level changes?

In this past year, the department's focus has been largely on program level changes rather than individual courses. This is due in some respects to the fact that most student learning outcome targets have been met in individual courses. Our chief focus has been on aligning our program choices to further support the college's target and mission. These changes include increased online presence, more online course offerings and concerted efforts to better align our schedule allowing for maximum course offering capability. The course level changes that have been proposed and/or submitted stem largely from efforts to expand our course offerings appeal to a broader audience of students by removing a prerequisites where CL-SLO's have lead us to believe prerequisites are not necessary. We are monitoring enrollments and success rates I those e classes where prerequisites have been removed. Our experience with THTR 1 was successful in this regard. Not only did enrollment increase but the success rate growth has also increased from 57% to 67% overall and 40% to 57% in the targeted group area. Additionally, in our online courses of higher density, we have begun to include earlier assessments to discourage underprepared students from enrollment past the early drop deadline.

If your program's CL-SLOs are not being met, please indicate your program objectives aimed at addressing this.

In a few instances our CL-SLO's are not being met, the data and our anecdotal hypotheses seem to indicate the difficulty lies in maintaining success rates in the online courses especially among targeted groups. The COOL committee and FGA have put forth suggestions for student engagement in online courses that we are implementing: pre-quarter e-mail communication, clear guidelines and expectations on the home page with clarity as to next assignment expectations. These initiatives have had success retaining targeted students. We will continue to monitor success rates quarterly and seek out assistance from the wider College community.

2E. Program-Level: How has assessment and reflection of program-level Student Learning Outcomes (PL-SLOs) led to certificate/degree program changes and/or improvements?

This area is where the most significant evaluation of the department's processes have been rendered by the representative faculty. In our attempts to better serve a broader population of students as well as boost the productivity, the department has arrived at a comprehensive two-year scheduling plan that addresses the program level needs and targets, aligning them with degree necessities. This evolution includes an increase in online course presence, an increase in general education and broader appeal courses and elimination or reduced sections of non-essential classes with historically precarious enrollment numbers.

What is being done at the program-level to assist students in achieving degree/certificate completion and/or transferring to a four-year institution?

As the first Theatre Arts student to achieve the ADT walked through last year's graduation ceremony, it is indicative of several others pursuing that new degree as well. After multiple hours of review analysis and negotiation, we have arrived at an exciting plan to introduce areas of emphasis within our AA degree during the next curriculum cycle. This proposed degree expansion is in an attempt to capture and motivate a number of students who have pursued the major almost to the point of completion, but moving on from their Foothill experience for a variety of reasons, though mostly having to do with taking a course or three within the major that does not interest them. This new plan offers students more flexibility in the focus of choosing their major with a particular emphasis. This coupled with the streamlined two-year course offering guidelines--a process that has been in flux since the elimination of repeatable courses-- should now offer students more streamlined, dependable ways of earning a degree more specifically tied directly to their interests.

If your department has a Workforce/CTE program, please complete Section 2F.
If your department does not have a Workforce/CTE program, please skip to Section 3.

2F. Workforce/CTE Programs: Refer to the program review [website](#) for labor market data.

What is the regional three-year projected occupational growth for your program?

2-4% in theatre and entertainment related fields

What is being done at the program-level to assist students with job placement and workforce preparedness?

Entertainment and Arts employment is projected to grow between 2 and 4% annually through 2017 according to California Ed. labor projections. Our Theatre Technology graduates are uniquely positioned for many of these jobs given the range of training and practical experience the program offers. Placement in the technical theatre industry is often driven by personal contacts. As such, the Theatre Technology faculty are in constant communication with many of the employers in the immediate area regarding their current and future needs. Faculty facilitate the contacts with employers and, where possible, provide advance screening and recommendations for prepared students. Given course and production schedules within the theatre community, it has been difficult to align internships for current student's schedules. We have, however, focused Perkins funding as well as new SB1070 funding to hire students to work alongside professionals in the field on department productions. These students have increased success with job placements after Foothill, often working for or alongside these professionals in career-advancing positions.

If your program has other program-level outcomes assessments (beyond SLOs and labor market data), discuss how that information has been used to make program changes and/or improvements.

The CTE advisory board for Theatre Technology includes a mix of secondary school educators and theatre professionals who regularly review articulation with secondary schools and preparedness for job placements based on current professional experiences. Within funding and equipment limitations, the program revises course content according to their input. The CCC 2015 core indicator report for Foothill Theatre Technology shows a 100% placement rate based on 2013-14 enrollments. Individual course enrollments in Theatre Technology remain constrained by facilities. The scenery

construction spaces can only safely accommodate 10-12 students at a time, costume and make up classes are limited to 20-24 and are split between two rooms. Specialized equipment must be portable and set up and removed on a regular basis for other room uses. Dedicated spaces for these classes would certainly allow more students access. As a temporary measure, we are looking at moving some lecture content online to allow more lab flexibility.

The Lohman theatre is now nearly 10 years old and some of the equipment was not new at the time. In terms of equipment technology, the facility is in the dark ages. For our students to be competitive in the job market, they must have training with modern technologies including digital controls, wireless communication and sound reinforcement and LED lighting technology for example. The facility is years behind most local secondary schools and it is difficult to claim we have a comprehensive theatre training program when the equipment does not support that training.

SECTION 3: SUMMARY OF PROGRAM OBJECTIVES & RESOURCE REQUESTS

3A. Past Program Objectives: Please list program objectives (not resource requests) from past program reviews and provide an update by checking the appropriate status box.

1. Implement courses that appeal to a broader range of students outside the department (since 2012)	Year: 12-16	☐ Completed	☐ Ongoing	☒ No Longer a Goal
2. Develop interdisciplinary courses within the Division to attract a broader range of students	Year: 15-16	☐ Completed	☐ Ongoing	☒ No Longer a Goal
3. Stabilize production support and staffing for all department offerings (since 2012)	Year: 12-16	☐ Completed	☒ Ongoing	☐ No Longer a Goal
4. Develop outreach support materials and implement an ongoing structure for outreach to secondary schools in our service area	Year: 15-16	☐ Completed	☐ Ongoing	☒ No Longer a Goal
5. Increase use of the Lohman theatre for lectures and small performances by campus and community groups	Year: 15-16	☐ Completed	☒ Ongoing	☐ No Longer a Goal
6. Replace worn and outdated equipment and furnishings (Since 2013)	Year: 13-16	☐ Completed	☒ Ongoing	☐ No Longer a Goal
7. Develop short courses in that can be offered at evening and weekend times and attract a new student population	Year: 15-16	☐ Completed	☐ Ongoing	☒ No Longer a Goal
8. Develop sustainable model for Theatre Arts Degree programs in performance (from 2012)	Year: 12-16	☐ Completed	☒ Ongoing	☒ No Longer a Goal

Please comment on any challenges or obstacles with ongoing past objectives.

All of these goals are from the 15-16 annual program review, with those held over from previous years noted. All are long-term goals that require significant resources, either faculty and staff time or capital funding.

Goals 1,2, 4 and 7 have had minimal progress and will be subsumed into a broader goal to increase productivity and stabilize enrollment (3b.1.). These are all strategies that we will continue to explore but the broader goal of enrollment stability is key in all of these. Outreach efforts (Goal 4) have been minimal although CTE funding created a new Theatre Technology brochure. Articulation discussions were held with MVLA and PASUD school districts by current and past Deans but have yet to yield substantive progress, in large part due to staffing changeovers at MVHS and difficulties aligning instructional times and low enrollment projections at the secondary level. Short courses in Theatre Technology (Goal 7) have been discussed in several venues including the CTE advisory group, but no progress has been made on how these can/would be created and offered or how they might align with current courses.

Major funding is an impediment to stabilizing production support (Goal 3) and upgrading equipment (Goal 6). A comprehensive look at departmental performance programs (including the summer musical) and budgets is needed after many years of status quo. The recently revised mission statement will be a starting point for this effort. Additional use of the Lohman Theatre (Goal 5) can be a driver for community recognition, fundraising and enrollment outreach. The proposed scene shop was delayed due to budget over runs on other campus bond projects. This facility could be used to facilitate additional use of the Lohman in addition to serving as a venue for classes in several emerging campus programs including industrial design and 3D modeling and engineering. Until there are viable rehearsal and scenic construction spaces outside the theatre any additional campus use or major revenue from rentals or will be limited. Progress on this is slow and minimal. A series of new Asian-American play readings was held last year and will continue, Music Technology has held a new music Festival the past three years, and a cooperative one-night performance of 48-hour Shakespeare is again repeating. New initiatives include a planned pilot production from TheatreWorks in December 2017 that has the potential to bring audiences and rental revenue into the Lohman several times a year. A sustainable model for a Theatre performance degree (Goal 8) has been attempted for the last five years and we will attempt to put this to rest through elective pathways in the existing AA degree during this curriculum cycle.

Please provide rationale behind any objectives that are no longer a priority for the program.

Goals 1,2, 4 and 7 have had minimal progress and will be subsumed into a broader goal to increase productivity and stabilize enrollment (3b.1.). These are all strategies that we will continue to explore but the broader goal of enrollment stability is key in all of these. Outreach efforts (Goal 4) have been minimal although CTE funding created a new Theatre Technology brochure and articulation discussions were begun with MVLA and PASUD school districts. Short courses in Theatre Technology (Goal 7) have been discussed in several venues including the CTE advisory group, but no progress has been made on how these can/would be created and offered or how they might align with current courses.

3B. New Program Objectives: Please list all new program objectives discussed in Sections 1-2; do not list resource requests in this section.

Program Objective	Implementation Timeline	Progress Measures
<i>Example: Offer 2 New Courses to Meet Demand</i>	<i>Winter 2016 Term</i>	<i>Course Enrollment</i>
1. Increase productivity and stabilize	raise to 430 by F18	course enrollment

enrollment		
2. Increase success rates in online courses	meet college standard by F18	course enrollment
3. Increase enrollment of minority and underserved student populations	match college profiles by F18	course enrollment
4. Stabilize production support and staffing for all department offerings	Fall 2018	revised programming and budget FY 2018
5. Increase use of the Lohman theatre for lectures and small performances by campus and community groups	ongoing	30 dates by 2018
6. Replace worn and outdated equipment and facilities	ongoing	replacement purchases

3C. EMP Goals. Please refer to the Educational Master Planning (EMP) [website](#) for more information. Indicate which EMP goals are supported by your program objectives (Check all that apply).

- ☒ Create a culture of equity that promotes student success, particularly for underserved students.
- ☒ Strengthen a sense of community and commitment to the College's mission; expand participation from all constituencies in shared governance.
- ☒ Recognize and support a campus culture that values ongoing improvement and stewardship of resources.

3D. Resource Requests: Using the table below, summarize your program's unfunded resource requests. Refer to the Operations Planning Committee (OPC) [website](#) for current guiding principles, rubrics and resource allocation information. Be sure to mention the resource request in your narrative above when discussing your program so the request can be fully vetted.

Resource Request	\$	Program Objective (Section 3B)	Type of Resource Request			
			Full-Time Faculty/Staff Position	One-Time B-Budget Augmentation	Ongoing B-Budget Augmentation	Facilities and Equipment
Scene shop	\$2M	1, 3, 5	☐	☐	☐	☒
Rehearsal space		5	☐	☐	☐	☒
Costume and makeup classroom	\$20-50K	1, 3	☐	☐	☐	☒

☐
☐
☐

3E. Unbudgeted Reassigned Time: Please list and provide rationale for requested reassign time.

--

3F. Please review the resource requests that were granted over the last three years and provide evidence that the resource allocations supported your objectives and led to student success.

Scene shop was originally part of bond measure but cost overruns in other areas dropped it off the list. No other resources requests were funded through program review in the last three years.

SECTION 4: PROGRAM SUMMARY

4A. Prior Feedback: Address the concerns or recommendations made in prior program review cycles, including any feedback from the Dean/VP, Program Review Committee (PRC), etc.

Concern/Recommendation	Comments
Improve WSCH	The program has streamlined course offerings--reducing sections of historically low enrolled courses, introduced more GE and broad-appeal courses and further reduced dependence upon adjunct faculty.
Sunnyvale campus presence	We are initiating an evening acting class there and have ideas for others if the initial offering proves successful. So far, response to non-technology classes in the evenings has been good and we hope to add to those successes.
Target more degree-specific students	The ADT is fully available now. We are putting the final touches on revisions to our AA degree to create multiple pathways within the discipline. Completion of an acting certificate program has stalled, but will soon be revisited.
Enrollment fluctuations and productivity	Prpogram will offer fewer sections with less reliance on PT faculty to increase productivity. FT faculty will teach more classes that have the potential to reach a broader student population and fewer low-enrolled courses will be offered that do not serve either degree pathways or a general campus population.

4B. Summary: What else would you like to highlight about your program (e.g. innovative initiatives, collaborations, community service/outreach projects, etc.)?

As indicated by the data, one of the Department's real strengths continues to be course completion rates as a measure of student success. Our position and relationship with the community remains a fairly unique one, compared to other departments, as we not only continue to serve thousands of patrons on-campus each year, but also have forged and maintained significant relationships with multiple professional and semi-professional performing arts organizations in the area. Some of these include: students being hired as production crew for TheatreWorks, our highly successful internship program with the City Lights Theater Company--now in its 12th year our second 48-Hour Play Festival on campus collaboration with the Silicon Valley Shakespeare Company. There are many others as well. We

have made several other attempts to collaborate with local high schools, some have not worked out, some have yielded significant benefit to both organizations. The efforts continue to reach out to them. The faculty has remained dedicated to maintaining a vibrant, diverse and dynamic program that fosters student success in many ways. We have been heartened that our students continue to thrive despite the decreased course offerings. The remaining challenges are substantial; to find a sustainable balance between instruction and production, to increase our presence on campus and in the community and to continue to develop curriculum and performances that inform our understanding of the world around us.

SECTION 5: LEARNING OUTCOMES ASSESSMENT SUMMARY

5A. Attach 2015-2016 Course-Level Outcomes: Four Column Report for CL-SLO Assessment from TracDat. Please contact the Office of Instruction to assist you with this step if needed.

5B. Attach 2015-2016 Program-Level Outcomes: Four Column Report for PL-SLO Assessment from TracDat. Please contact the Office of Instruction to assist you with this step if needed.

SECTION 6: FEEDBACK AND FOLLOW-UP

This section is for the Dean/Supervising Administrator to provide feedback.

6A. Strengths and successes of the program as evidenced by the data and analysis:

The Theatre Department has been struggling to deal with the end of repeatability for some years and I feel that they have finally come to terms with the fact that they need to see themselves as a regular Foothill department (with a robust offering of GE classes) and not as a special program (The Conservatory). They have worked with both the recent deans to streamline their course offerings and make sure that all full-time faculty teach the higher-enrolled online and F2F courses (THTR 1, THTR 8, etc.). We have seen a small improvement in enrollment and will continue to schedule only full-time faculty for these classes from now on. In addition, three of the four THTR faculty are Canvas trained and are teaching online sections. This will also help enrollment.

The department has committed to writing more GE curriculum and the THTR 2F and THTR 12A classes will be a positive addition to their GE offerings, especially as online courses. The overall courses success rate is still high (85%), although the slight decline since 2012/13 could be a function of the move to online sections.

It is nice to see that the department is so involved in the local community and bringing Theatreworks productions to the college in 2017 will help subsidize the cost of the Lohman and also provide opportunities for our students to work side by side with a professional theatre company. Theatre Technology is a CTE program and has been receiving Perkins funding for some time. We hope that the Strong Workforce initiative will also contribute to the expansion of this CTE program offering our tech students opportunities for paid internships with local theatre companies.

6B. Areas of concern, if any:

The most obvious area to address is enrollment. It has declined to the point that the program has very low productivity (353 last quarter). The department is hoping that more online sections will help grow both enrollment and productivity and the fact that one faculty member is on 33% reassigned time this year will also help. It must be noted that the department did not offer its usual Summer Musical last year (to be revived this summer) and that also hurt enrollment. The Theatre Department needs to take a

close look at its course offerings and see if there is any way it can attract more students from underrepresented groups; offering more GE courses will help in this effort as will participation in campus events (The Ghostlight event, being an example). The department did host one Open House in November and it is recommended that they do the same in the winter and spring to let more students know about their course offerings and to welcome the whole campus community into the program.

6C. Recommendations for improvement:

The THTR department needs to continue to market their program to the campus community. Outreach to local high-school THTR programs to attract students up to Foothill College would also help build interest and enrollment. Finally, the full-time faculty must teach at least one high-enrollment GE class each every quarter. This has already helped and will make a huge difference in productivity and enrollment.

6D. Recommended Next Steps:

- ☒ Proceed as Planned on Program Review Schedule
☐ Further Review / Out-of-Cycle In-Depth Review

This section is for the Vice President/President to provide feedback.

6E. Strengths and successes of the program as evidenced by the data and analysis:

The department should be commended for its effort to re-invigorate enrollments. It is clear from this program review that a lot of thought has been put in to how best to serve students and how best to get more students excited about a degree in Theatre. The department should be commend for its recent curriculum changes designed to better meet student needs.

It is nice to see THTR 8: Multicultural Theater Arts in Modern America (4 units) included as an elective in the new Social Justice ADT.

6F. Areas of concern, if any:

I think the department's focus on program pathways will pay off in the long run. I must say it is not clear to me from this program review the distinction between the Theatre Teachnology award and the Theatre Arts AA and ADT and how they work together. Articulating this for students in clearly defined pathways could be one tool for increasing enrollment.

6G. Recommendations for improvement:

The program outcomes assessments show students are generally meeting the outcomes of the program (except for the porfolio). The department might consider working with institutional research to look at the outcomes for students based on their curricular pathway and demographics to assess whether there are differences in outcomes based on success in supporting courses - including courses outside the department.

The is a new reporting tool that provides information on potential student enrollment selections based on the student educational plan that might be helpful in mapping scheduling needs. The department might work with institutional research to review this data.

A sample of other suggestions (from various sources) for increasing the success for disproportionately impacted students include:

- Syllabus redesign
- Incorporation of service learning activities
- Including classroom activities to acknowledge and strengthen students' personal identities as learners (in the discipline)

These suggestions are given in the spirit of helping the program to improve. It is clear from the writing that the program has taken the time to thoughtfully address the prompts in this program review which show a viable program working to improve the learning opportunities for all its students.

6H. Recommended Next Steps:

- ☒ Proceed as Planned on Program Review Schedule
☐ Further Review / Out-of-Cycle In-Depth Review

Upon completion of Section 6, the Program Review document should be returned to department faculty/staff for review, then submitted to the Office of Instruction and Institutional Research for public posting. Please refer to the Program Review timeline.

Unit Course Assessment Report - Four Column

Foothill College

Department - Theatre Arts (THTR)

Mission Statement: The Foothill College Theatre Arts Department educates and trains students to become confident, skilled performers and technicians by providing an extensive program of classwork and production experience while offering our community dynamic cultural enrichment.

Course-Level SLOs	Means of Assessment & Targets for Success / Tasks	Assessment Findings/Reflections	Action Plan & Follow-Up
Department - Theatre Arts (THTR) - THTR 1 - THEATRE ARTS APPRECIATION - 1 - Integrate - A successful student will analyze and integrate his/her own artistic standards as they relate to theatrical performance and criticism. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method: Students will attend theatrical performances and submit written opinions of the production. Students will evaluate the the acting, directing, play structure, design components and audience response of the performance. Assessment Method Type: Essay/Journal Target for Success: Successful students will present clear opinions with supporting examples from the performance in at least three of the five artistic criteria.	12/02/2016 - All students who successfully passed the class were able to present clear opinions with supporting examples in multiple artistic areas. This is a core value of the learning outcomes in the course and directly correlates to overall course success. Students who struggle with this learning outcome are typically ESL students or students who are less prepared for the rigors of college level writing. Early assessment of these students in the class can help them either withdraw and correct their preparation deficiencies or prompt instructor recommendations for additional assistance. Course success rates are below college goals and methodology should be evaluated, especially with new faculty instructors being considered. Result: Target Not Met Year This Assessment Occurred: 2015-2016	12/02/2016 - Increased faculty contact for at risk students through face-to-face meetings (when possible) telephone contact, or peer mentoring. Larger discussion with department and college faculty regarding preparations for online student success. Incorporate alternate strategies including voicethread, to evaluate integration skills.
Department - Theatre Arts (THTR) - THTR 1 - THEATRE ARTS APPRECIATION - 2 - Illustrate - A successful student can use examples from theatrical performances to illustrate his/her own artistic standards. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method: Students will attend theatrical performances and submit written opinions of the production. Students will evaluate the the acting, directing, play structure, design components and audience response of the performance. Assessment Method Type: Class/Lab Project Target for Success: Students create a viable finished product for performance purposes.	12/08/2016 - Students are able to practically use skills learned in other classes -- including Directing, Lighting, and Costumes and Props -- to add to creative sensibilities. The previously acquired knowledge supported all student's enthusiasm to participate and engage. Result: Target Met Year This Assessment Occurred: 2015-2016	
Department - Theatre Arts (THTR) - THTR 46C - THEATRE DEVELOPMENT WORKSHOP III - 3-Advanced skills - A successful student will participate in and substantially improve skills in multiple areas of theatre production. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method: Effective performance in more than one area of production is evaluated. Assessment Method Type: Presentation/Performance Target for Success: Students get the opportunity to expand skills and reach a higher level of proficiency in various areas of interest.	12/08/2016 - A final performance for an audience is an effective motivator for the honing of acquired skills. All students were successful at achieving the best possible results with this goal in mind. Result: Target Met Year This Assessment Occurred: 2015-2016	

Course-Level SLOs	Means of Assessment & Targets for Success / Tasks	Assessment Findings/Reflections	Action Plan & Follow-Up
Department - Theatre Arts (THTR) - THTR 46D - THEATRE DEVELOPMENT WORKSHOP IV - 1-Leadership - A successful student will participate in a leadership role: either as student leader of the entire project, or student coordinator in a specified area, or director of a group piece. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method: Position is observed, guided and critiqued in chosen or assigned leadership role. Assessment Method Type: Observation/Critique Target for Success: Students will successfully direct or guide other students in one or more aspects of the creation of a final production.	12/08/2016 - Students are excited to take on leadership roles and be able to experiment in a nonthreatening environment. The students are able to gain a higher level of responsibility in these positions. Learning from and evaluating past leader ideas and protocol helped to create new and more effective ideas and actions. Result: Target Met Year This Assessment Occurred: 2015-2016	
Department - Theatre Arts (THTR) - THTR 46D - THEATRE DEVELOPMENT WORKSHOP IV - 2-Master skills - A successful student will master skills applicable to all aspects of theatre production. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method: Students are guided and tutored while practicing leadership and design skill sets. Assessment Method Type: Class/Lab Project Target for Success: Students effectively guide other fellow students and technicians to create an effective and successful performance.	12/08/2016 - Students are able to practically use mastered skills learned in other classes -- including Directing, Lighting, Costumes and Props -- to add to creative sensibilities and guide most effectively. Result: Target Met Year This Assessment Occurred: 2015-2016	
Department - Theatre Arts (THTR) - THTR 46D - THEATRE DEVELOPMENT WORKSHOP IV - 3-Organization - A successful student will coordinate production elements in multiple areas of theatre craft. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method: Effective performance in more than one area of production is evaluated. Assessment Method Type: Presentation/Performance Target for Success: Students get the opportunity to expand and master skills in multiple areas of interest.	12/08/2016 - A final performance for an audience is an effective motivator for the presentation of mastered skills. All students worked to achieve the best possible results with this goal in mind. Result: Target Met Year This Assessment Occurred: 2015-2016	
Department - Theatre Arts (THTR) - THTR 47 - MUSIC THEATRE PRODUCTION WORKSHOP - 1 - Synthesize/Develop Skills - A successful student will, through critical thinking, problem solving, and teamwork practices, challenge, synthesize and develop	Assessment Method: Successful fulfillment of designated performance/production assignment. Assessment Method Type: Presentation/Performance		

Course-Level SLOs	Means of Assessment & Targets for Success / Tasks	Assessment Findings/Reflections	Action Plan & Follow-Up
skills pertaining to the designated assignment (performer, choreographer, designer, stage manager, technician, musical director, musician) in staging a fully-realized, large-scale, live musical theatrical performance. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active			
Department - Theatre Arts (THTR) - THTR 47 - MUSIC THEATRE PRODUCTION WORKSHOP - 2 - Experiential Knowledge - A successful student, through personal involvement, will gain experiential knowledge of the many processes necessary for preparing and producing a fully-realized, large-scale, live musical theatrical performance--rehearsal process, technical rehearsal, fusion of design concepts, performance standards, auditioning and casting, publicity. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method: Comparative analysis of singing, movement and acting skills at various points within the quarter with emphasis on Mid-term and final performances. Assessment Method Type: Class/Lab Project Target for Success: Students will show improvement in each area allowing them to move on to the Intermediate level course.		
Department - Theatre Arts (THTR) - THTR 47A - INTRODUCTION TO MUSICAL THEATRE PRODUCTION - Student Learning Outcome #1 - Upon completion of this course students will understand and apply the fundamentals of musical theatre ensemble performance. Department - Theatre Arts (THTR) - THTR 50 - PRODUCTION PROJECTS IN THEATRE - 1 - Investigate Skills - A successful student will discover and	Assessment Method: Written original scripts or a variety of observable skill sets		

Course-Level SLOs	Means of Assessment & Targets for Success / Tasks	Assessment Findings/Reflections	Action Plan & Follow-Up
investigate skills applicable to the creation of all aspects of theatre production. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method Type: Discussion/Participation Target for Success: Accepted script work and assignment of acting and/or technical positions.		
Department - Theatre Arts (THTR) - THTR 50 - PRODUCTION PROJECTS IN THEATRE - 2 - Practice and Apply - A successful student will practice and apply skills in multiple areas of theatre, including playwriting, acting, directing, design, management and marketing. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method: Observation, participation and discussion Assessment Method Type: Class/Lab Project Target for Success: Completion of writing, acting, directing or design project, or assigned technical/production work.		
Department - Theatre Arts (THTR) - THTR 50 - PRODUCTION PROJECTS IN THEATRE - 3 - Themes and Issues - A successful student will identify and explore relevant, topical, contemporary issues and themes upon which to build a production. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method: Script writing and group projects Assessment Method Type: Discussion/Participation Target for Success: Completed public performance based on cooperatively agreed upon issues and themes.		
Department - Theatre Arts (THTR) - THTR 53 - AUDITIONING FOR THEATRE - 1 - Audition Package - Successful students generate, rehearse and perform a general audition package, suitable for application to the theatre community at large incorporating the criteria and theories introduced. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method: Successful execution of small performance exercises gauged for knowledge integration into practice. Cumulative final performance assignment. Assessment Method Type: Presentation/Performance		
Department - Theatre Arts (THTR) - THTR 53 - AUDITIONING FOR THEATRE - 2 -	Assessment Method: Students are expected to contribute to		

Course-Level SLOs	Means of Assessment & Targets for Success / Tasks	Assessment Findings/Reflections	Action Plan & Follow-Up
Premises - Successful students apply practical comprehension of auditioning premises and industry guidelines through multiple auditioning scenarios. (Created By Department - Theatre Arts (THTR))	inquiries and discussions from both instructor and peers in relating own perceptions and development. Assessment Method Type: Discussion/Participation		
Course-Level SLO Status: Active			
Department - Theatre Arts (THTR) - THTR 53 - AUDITIONING FOR THEATRE - 3 - Promotion/Presentation - Successful students capture concepts of self-promotion and the industry standards for personal presentation in seeking performance/employment opportunities. (Created By Department - Theatre Arts (THTR))	Assessment Method: Successful execution of small performance exercises gauged for knowledge integration into practice. Cumulative final performance assignment. Assessment Method Type: Presentation/Performance		
Course-Level SLO Status: Active			
Department - Theatre Arts (THTR) - THTR 54 - ACTOR'S WORKSHOP - 1 - Develop Skills - Successful students develop and practice additional skills in stage characterization, movement and voice, focusing on a high level of versatility. (Created By Department - Theatre Arts (THTR))	Assessment Method: Observation Assessment Method Type: Class/Lab Project Target for Success: Fully submersed and committed in-class acting assignments, leading to expanded versatility as an actor.		
Course-Level SLO Status: Active			
Department - Theatre Arts (THTR) - THTR 54 - ACTOR'S WORKSHOP - 2 - Strengths/Weaknesses - Successful students are able to identify acting strengths and weaknesses, and convert weaknesses into additional strengths. (Created By Department - Theatre Arts (THTR))	Assessment Method: Discussion, observation Assessment Method Type: Discussion/Participation Target for Success: Full awareness of acting strengths and weaknesses, and the development of the ability to control them.		
Course-Level SLO Status: Active			

Course-Level SLOs	Means of Assessment & Targets for Success / Tasks	Assessment Findings/Reflections	Action Plan & Follow-Up
Department - Theatre Arts (THTR) - THTR 56 - CHARACTERIZATION - Critical thinking - Upon completion of this course, students will have accessed multiple methods and approaches, employing a cross section of movement and vocal based skills, towards the challenges of embodying complex characterizations for performance. (Created By Department - Theatre Arts (THTR))	Assessment Method: Special project report presentation--demonstrating the synthesis of multiple target points of applying research and presentation. Assessment Method Type: Presentation/Performance Target for Success: 85% of students scoring passing grade	11/28/2016 - Appropriate level of targeted students achieved goal through targeted assessments. Result: Target Met Year This Assessment Occurred: 2014-2015	
Course-Level SLO Status: Active	Assessment Method: Special project report presentation--demonstrating the synthesis of multiple target points of applying research and presentation.		
Department - Theatre Arts (THTR) - THTR 56 - CHARACTERIZATION - Performance - Upon completion of this course students will have engaged comprehensive preparation and performance strategies, producing increased embodying confidence in performance, highly applicable to industry employment. (Created By Department - Theatre Arts (THTR))	Assessment Method: Students research and intergret varied material sources related to particular assignments and compile a strategy-based research presentation of expected approaches for class review. Assessment Method Type: Presentation/Performance		
Course-Level SLO Status: Active	Assessment Method: Successful execution of small performance exercises gauged for knowledge integration into practice. Cumulative final performance assignment. Assessment Method Type: Presentation/Performance	11/28/2016 - Appropriate level of targeted students achieved goal through targeted assessments. Result: Target Met Year This Assessment Occurred: 2014-2015	
Department - Theatre Arts (THTR) - THTR 57 - ACTOR MARKETING STRATEGIES - 1 -Analysis - A successful student will interpret and absorb the psychology of the audition process from the perspectives of actor, director, casting director, and talent agent. (Created By Department - Theatre Arts (THTR))	Assessment Method: Participation in group and class discussions with instructor and guest speakers. Assessment Method Type: Discussion/Participation Target for Success: Each student will contribute in discussion.		

Course-Level SLOs	Means of Assessment & Targets for Success / Tasks	Assessment Findings/Reflections	Action Plan & Follow-Up
Course-Level SLO Status: Active			
Department - Theatre Arts (THTR) - THTR 57 - ACTOR MARKETING STRATEGIES - 2 -Marketing - A successful student will develop a working resume, headshot, and other personal marketing materials. (Created By Department - Theatre Arts (THTR))	Assessment Method: Evaluation of industry ready marketing materials. Assessment Method Type: Portfolio Review Target for Success: Each student will prepare and present completed portfolio of assigned materials.		
Course-Level SLO Status: Active			
Department - Theatre Arts (THTR) - THTR 57 - ACTOR MARKETING STRATEGIES - 3 -Practice and Apply - A successful student will practice preparation skills for various theatrical auditioning formats, including appropriate monologues and cold reading technique. (Created By Department - Theatre Arts (THTR))	Assessment Method: Presentation of selected audition materials for appropriateness and thoroughness of preparation. Assessment Method Type: Presentation/Performance Target for Success: Fully prepared and ready industry viable auditioning work.

Department - Theatre Arts (THTR) - THTR 63A - FILM & TELEVISION ACTING WORKSHOP - 1- Identification/Developement - A successful student will recognize and adjust stage movement and voice modulation as they pertain to film and television acting. (Created By Department - Theatre Arts (THTR))	Assessment Method: Each student will perform specific on-camera tasks and scenes in order recognize and practice successful technique. Assessment Method Type: Discussion/Participation	10/09/2016 - All students made substantial progress. Result: Target Met Year This Assessment Occurred: 2015-2016	

Course-Level SLOs	Means of Assessment & Targets for Success / Tasks	Assessment Findings/Reflections	Action Plan & Follow-Up
Course-Level SLO Status: Active			
Department - Theatre Arts (THTR) - THTR 63A - FILM & TELEVISION ACTING WORKSHOP - 2 - Practice and Apply - A successful student will become familiar with the basic types of film and television production formats the actor will encounter and how to function within them. (Created By Department - Theatre Arts (THTR))	Assessment Method: Scenes and exercises will be assigned, performed and evaluated. Assessment Method Type: Presentation/Performance	10/09/2016 - The addition of two support people to film and direct the scenes keeps the large class flowing and keeps students productive. Assignments for each student to support the performing students also keeps needed focus. Result: Target Met Year This Assessment Occurred: 2015-2016	
Course-Level SLO Status: Active			
Department - Theatre Arts (THTR) - THTR 63A - FILM & TELEVISION ACTING WORKSHOP - 3 - Audition skills - A successful student will understand and develop skills for the casting process as it pertains to all forms of media production. (Created By Department - Theatre Arts (THTR))	Assessment Method: A variety of casting challenges and situations will be presented and performed in order to understand and practice for work related opportunities. Assessment Method Type: Class/Lab Project	10/09/2016 - Bringing in a professional Casting Agent as a final adds to each student's success in all areas of practice. Getting feedback from this perspective gives each student a very tangible marker to their level of success, as well a weaker areas to continue to focus on. Result: Target Met Year This Assessment Occurred: 2015-2016	
Course-Level SLO Status: Active			
Department - Theatre Arts (THTR) - THTR 63B - FILM & TELEVISION ACTING CAREER PREPARATION - 1 - Identify /Develop - A successful student will become familiar with the business practices and necessities of the film and television industry, and develop all essential job placement marketing materials (Created By Department - Theatre Arts (THTR))			
Course-Level SLO Status: Active			
Department - Theatre Arts (THTR) - THTR 63B - FILM & TELEVISION ACTING CAREER PREPARATION - 2 - Demonstrate			

Course-Level SLOs	Means of Assessment & Targets for Success / Tasks	Assessment Findings/Reflections	Action Plan & Follow-Up
- A successful student will demonstrate an understanding of personal type and how best to utilize this feature in the acting job market. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active			
Department - Theatre Arts (THTR) - THTR 63B - FILM & TELEVISION ACTING CAREER PREPARATION - 3 - Audition Skills - A successful student will understand and develop skills for the casting process as it pertains to all forms of media production (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active			
Department - Theatre Arts (THTR) - THTR 7 - INTRODUCTION TO DIRECTING - 1 - Relationship - A successful student can demonstrate an understanding of the relationship of the director to the total theatrical production. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method: Assigned exercises for practice. Assessment Method Type: Class/Lab Project Target for Success: The ability to effectively direct actors within various types of scene work and exercises.		
Department - Theatre Arts (THTR) - THTR 7 - INTRODUCTION TO DIRECTING - 2 - Script - A successful student will analyze and prepare a script for production. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method: A fully analyzed, delineated, and notated scene from a script. Assessment Method Type: Case Study/Analysis Target for Success: Students are to hand in a complete, coherent and effectively analyzed scene that supports and validates all directing choices.		
Department - Theatre Arts (THTR) - THTR 7 - INTRODUCTION TO DIRECTING - 3 -	Assessment Method: Observation and feedback of casting		

Course-Level SLOs	Means of Assessment & Targets for Success / Tasks	Assessment Findings/Reflections	Action Plan & Follow-Up
Actors/Casting - A successful student will assemble actors for production through the audition and casting process. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	process for assigned scenework. Assessment Method Type: Interviews/Focus Groups Target for Success: The ability to take charge, use creativity, and communicate with clarity within the casting process, to effectively choose appropriate actors for assigned scenework.		
Department - Theatre Arts (THTR) - THTR 7 - INTRODUCTION TO DIRECTING - 4 - Scene - A successful student will dramatize a theatrical scene utilizing the fundamentals of composition, movement, business and characterization. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method: Full class observation and critiques of directing success in prepared scenework. All aspects of composition, movement, business and characterization are addressed. Assessment Method Type: Observation/Critique Target for Success: The ability to substantiate a developed concept for staging a scene, and communicating effectively to actors in order to translate fully on stage.		
Department - Theatre Arts (THTR) - THTR 70R - INDEPENDENT STUDY IN THEATRE ARTS - Independent Study - Students will demonstrate greater proficiency in the discipline through independent study. (Created By Department - Theatre Arts (THTR)) Assessment Cycles: End of Quarter Course-Level SLO Status: Active	Assessment Method: Contracted projects with individual goals targeted to be completed under faculty supervision thereby demonstrating proficiency to expertise in prescribed field of theatre arts specialty Assessment Method Type: Class/Lab Project Target for Success: All students successfully completing targeted goal as prescribed in individual projects.		
Department - Theatre Arts (THTR) - THTR 8 - MULTICULTURAL PERFORMING ARTS IN MODERN AMERICA - 1 - Tradition/Context - A successful student will have connected the development of each			

Course-Level SLOs	Means of Assessment & Targets for Success / Tasks	Assessment Findings/Reflections	Action Plan & Follow-Up
theater tradition with social, political and artistic movements of the time, and therefore can locate each tradition within a diverse cultural context. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active			
Department - Theatre Arts (THTR) - THTR 8 - MULTICULTURAL PERFORMING ARTS IN MODERN AMERICA - 2 - Theater Types - A successful student will have distinguished between the commercial Broadway theater, the non-profit regional theater and theaters with a multicultural focus, and therefore can identify less visible, mission theater companies in the Bay Area. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active			
Department - Theatre Arts (THTR) - THTR 81 - CONTEMPORARY ISSUES IN PERFORMANCE SEMINAR - 1 - Trends - A successful student will distinguish and examine the contemporary performance and business trends of the entertainment industry. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method: Successful students will choose and present a panel discussion project based in the class periodical text. Assessment Method Type: Presentation/Performance		
Department - Theatre Arts (THTR) - THTR 81 - CONTEMPORARY ISSUES IN PERFORMANCE SEMINAR - 2 - Productions - A successful student will analyze and evaluate theatrical productions by professional and nonprofessional performers and companies. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status:	Assessment Method: Students will attend at least one live performance and submit a written critique. Assessment Method Type: Observation/Critique		

Course-Level SLOs	Means of Assessment & Targets for Success / Tasks	Assessment Findings/Reflections	Action Plan & Follow-Up
Active Department - Theatre Arts (THTR) - THTR 81 - CONTEMPORARY ISSUES IN PERFORMANCE SEMINAR - 3 - Ethics - A successful student will recognize and identify the industry standards of ethical behaviors and practices for professionals. (Created By Department - Theatre Arts (THTR)) Course-Level SLO Status: Active	Assessment Method: Students will engage and participate in discussions with instructor and guest artists. Assessment Method Type: Discussion/Participation		
Department - Theatre Arts (THTR) - THTR 85 - DIRECTED FIELD STUDY IN THEATRE - 1 - Insight/Perspective - Upon completion of this course, students through observation of outstanding, live, professional theatre, students gain insight and perspective into the unique symbiosis of text, direction, acting and design in creating a vessel of meaningful communication to an audience. In turn, promoting a framework of professional inspiration by which students can assess their own career development. (Created By Department - Theatre Arts (THTR)) Start Date: 11/30/2011 Course-Level SLO Status: Active	Assessment Method: Analysis of lab materials for synthesis and interpretation for written/verbal scrutiny. Assessment Method Type: Observation/Critique		
Department - Theatre Arts (THTR) - THTR 85 - DIRECTED FIELD STUDY IN THEATRE - 2 - Analytical Abilities - Upon completion of this course, students will deepen analytic abilities through relating various components of the art form to issues of personal, cultural, political, social, relevance and reflection--analytic skills applicable in multiple fields.	Assessment Method: Students are expected to contribute to inquiries and discussions from both instructor and peers in relating own perceptions and development. Assessment Method Type: Discussion/Participation

Unit Assessment Report - Four Column

Foothill College

Program (FA-THTT) - Theatre Technology AA/CA

PL-SLOs	Means of Assessment & Target / Tasks	Assessment Findings/Reflections	Action Plan & Follow-Up
Program (FA-THTT) - Theatre Technology AA/CA - 1 - Students will be able to seamlessly and integrally contribute to any further educational or workforce experience in their prescribed area of the performing arts with minimal fundamental adjustment period. Matriculating students will be able to critically assess his or her role in prescribed technical production areas with respect to further educational or workforce experience or continued advanced training. Start Date: 09/26/2011 End Date: 06/29/2012 SLO Status: Active	Assessment Method: Matriculated students will be surveyed regularly to determine their success in their further professional development and their assessment of the level of preparedness they achieved as a result of their coursework in the program. Students will be surveyed using social media and data gathered immediately before matriculation and annually for a min of two years Assessment Method Type: Survey Target: 75% of students either continuing their education at a higher level or in the workforce in the field	12/12/2016 - CTE report from 2013-14 enrollments shows 100% placement of surveyed students working in the industry. Result: Target Met Year This Assessment Occurred: 2015-2016	
		12/11/2015 - 12 theatre technology students matriculated during 2014-2015. Of those 4 transferred out of state without attaining a degree at Foothill, 1 received AA degrees in Theatre Arts since one of the classes needed for the technology degree had not been taught in the two years they were at school. 3 completed Career certificates and, along with two others, went directly into the workforce locally and out of state. Result: Target Met Year This Assessment Occurred: 2014-2015 Resource Request: The lack of adequate shop space hampers instruction in these courses, especially THTR 21. The variety of skills needed can only be taught in small groups leaving others un instructed. Additional instructional aides would help make this work better	
		12/13/2013 - Of the 14 declared Theatre Technology students in Fall 2012, 4 received AA degrees at the end of the academic year, 5 were continuing students, 2 had transferred without degrees, 2 were working locally in the industry and 1 has taken time off to work and reassess his educational options. Result: Target Met

		Year This Assessment Occurred: 2012-2013 GE/IL-SLO Reflection: There is a renewed focus within the student population to complete their GE courses. The Theatre Technology students not only take classes for their major as a group but often take their GE classes and have study sessions together. GE/IL-SLO Reflection: There is a renewed focus within the student population to complete their GE courses. The Theatre Technology students not only take classes for their major as a group but often take their GE classes and have study sessions together.	
		10/08/2012 - In Fall 2011 there were 13 students listed as Theatre Technology majors and enrolled in classes within the discipline. By Fall of 2012, 3 had received their AA degrees, 1 had received an AA in Theatre Arts, and 1 had transferred out of state as a Theatre Major. All were working outside school in the industry. Of the remaining 8 students, 1 will complete an AA in Winter 2013, 4 others intend to complete their degree and/or transfer after Spring 2013, 2 are less likely to be successful and 1 has moved out of state to work in the industry. Of the continuing students, over half are already employed part time in the theatre industry. Result: Target Met Year This Assessment Occurred: 2011-2012 Resource Request: staff or student employee time to search out and maintain contact with matriculated students GE/IL-SLO Reflection: Matriculated students have the requisite training and experience to transition into	10/08/2012 - Request FWS student to assist in setting up a data base of matriculated students for tracking future education and employment information

PL-SLOs	Means of Assessment & Target / Tasks	Assessment Findings/Reflections	Action Plan & Follow-Up
		either further educational opportunities or the workforce. These students learn and practice team building and cooperative problem solving during most of their classes in the program. Students can learn practical applications for computational skills and are challenged to write critical assessments of theatrical productions for sharing with their peers and instructors.	
Program (FA-THTT) - Theatre Technology AA/CA - 2 - Students will observe, model and be able to employ skill sets of collaboration relevant to multiple arenas of alliance or teamwork. SLO Status: Active	Assessment Method: Students will be assessed in collaborative settings by faculty and visiting professional artists to determine their level of proficiency and to develop a plan for increasing their abilities to respond appropriately and successfully to the challenges of collaborative art environment Assessment Method Type: Observation/Critique Target: 75% of matriculated will be able to work comfortably and effectively working in a targeted, collaborative environment within the theatre community	12/11/2015 - Matriculated students have easily shown their ability to work in these pressure situations. They generally have 3-4 quarters of increasing responsibility in collaborative assignments on productions and most excel after the first year. The high rate of acceptance of matriculated students into the job market (50%) offers corroborating evidence. Result: Target Met Year This Assessment Occurred: 2014-2015	
Program (FA-THTT) - Theatre Technology AA/CA - 3 - Students will develop skills for evaluating their own and others contributions to successful outcomes in a high-pressure, collaborative environment. SLO Status: Active	Assessment Method: Students in the program will develop and maintain a comprehensive portfolio of their work in collaborative performing arts environments. Assessment Method Type: Portfolio Review Target: 80% of students will have created an electronic portfolio before the end of their first year in the program	12/12/2016 - The program has not focused class time on this goal. It should be added to the curriculum and teaching methodology in all Theatre Technology classes Result: Target Not Met Year This Assessment Occurred: 2015-2016	12/12/2016 - rewrite course SLOs to reflect this outcome. Add curriculum to all program courses. Investigate the need for a capstone course for all Certificate and Degree students
