<b>I. Department/Program Mission</b>	
1. State the department name and everyone who participated in creating the comprehensive program plan.	TESTING CENTER Laureen Balducci, Dean of Counseling and Matriculation Counselors: Jerry Cellilo, Isaac Escoto, Voltaire Villanueva  Classified Staff: Nancy Rogers, Kathleen Turner
2. State the program's mission. If you don't have one, create one.	The Testing Center is committed to facilitating the educational process by providing assessment services to the college community and by providing data and assistance for the development and enhancement of instruction and instructional programs.
3. Explain how the program/department mission is aligned with the <a href="#">college mission</a> ?	We provide services that allow our "clients" to fulfill their mission and goals. We exist in relationship to others with the goal of assisting them (our clients, e.g. academic and administrative depts., licensing agencies, testing companies, distance education programs) and their constituents (students & community) with achieving their goals

<b>II. Department and Program Description &amp; Data</b>

<b>Classified Positions</b>	<b>Full-time Headcount</b>	<b>Part-time Headcount</b>	<b>Brief Description of duties</b>
Assessment Specialist	1	0	The Assessment Specialist schedules, administers and scores a variety of assessment tests to students to assess basic skills in English, English as a Second Language (ESL), mathematics, chemistry or other test as assigned.
Testing Technician	2	0	Provide computer maintenance and support for the testing lab(s) as well as administering exams for all programs and basic skills assessments. Update scheduling system and schedule appointments when students are unable to schedule themselves.

<p>3. Given available data, describe the trends in <b>overall student usage (# served by total headcount, amount served through telephone, amount served through online communication)</b>. Are there changes in overall usage? What are the implications for your department/program?</p>	<p>Through the academic year July 2008 - June 2009, the Scheduling System shows:</p> <p>Chemistry: 376      English: 3044      ESL: 1475      Mathematics: 4729      Exams for Inst.: 1545      ATB for Financial Aid: 57      FH Exam: 113      iTEP: 11      TEAS for nursing programs: 25      Student Served at Group: 450      Emails: 3000 est.      Faxes: 50 est</p> <p><b>TOTAL Student Contacts: 14875 This does not included drop in students or phone contacts</b></p>	
<p>4. <b>Scheduling of services:</b> Given available data, describe the patterns in <b>usage (times of day, times of year, weekend usage)</b>. Are there changes in when students access services? What are the implications for your department/program?</p>	<p>Most appointments are created between 11 am and 5 pm but the start time for the appointments is 9 am to 2 pm. Due to a staffing shortage, students need service at the times we have the least coverage. Although 3 staff are assigned to testing, one position has been frozen for the past year. There is a greater demand for testing services at the same time staffing is reduced. The trend is for more testing to support classes on campus and through distance learning programs.</p>	
<p>5. <b>Student Demographics:</b> Given available data, describe the trends with respect to <b>student demographics and underrepresented students</b>. Are there changes in access to and use of services? How will your program address any needs/challenges indicated by the data?</p>	<p>The Testing Center is struggling to provide support to underrepresented students by providing review information and encouragement to challenge themselves. Without adequate staff, we are unable to expand the program to the high schools to help students prepare two years in advance of testing for college.</p>	
<p>6. <b>Student Academics:</b> Given available data, describe the trends with respect to the <b>academic characteristics of students, such as transfer or basic skills status</b>. Are there changes in access to and use of services? What are the implications for your department/program?</p>	<p>Only 23% of the students testing in math place into college level math. Due to an increase in cut scores, little progress has been made to improve this statistic since the last program review. We need to develop partnerships with high school instructors to expand testing to the high schools to encourage students to</p>	

	continue in math through intermediate algebra.	
7. <b>International Students:</b> Given available data, describe the trends with respect to <b>international students</b> . Are there changes in access to and use of services? What are the implications for your department/ program?	The current trend with the increase of international students continues but working closely with International Program Director, we are using the scheduling system to mediate the impact of reduced staff on services for this population.	
8. Optional: Provide any additional data relevant to your program. (Indicate the source of the data).		
9. Are you seeing <b>trends</b> that are not reflected in the data cited above? If yes, please explain.	The data does not reflect the anxiety level of the students who want to test as high as possible immediately because the college that accepted them suddenly referred them a community college after registration has begun.	

<b>Summary of Planning Goals &amp; Action Plans</b>				
10. Identify 1-3 operational goals for the next 3 years and link them to one or more <b>college strategic initiatives</b> or to your <b>operations</b> . (PRIORITY BY SECTIONS i.e. need more resources to deal with growing population)
