Spring Classes Start April 9

#### New Course

### Study the Science Behind Natural Disasters

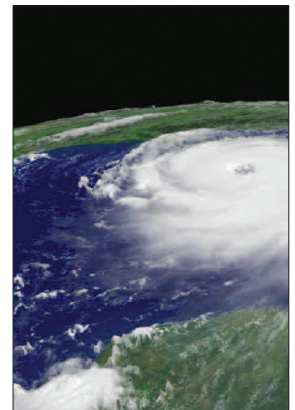

From tsunamis to earthquakes to global climate changes, study the science of natural disasters and Earth catastrophes by enrolling in Foothill's four-unit *GEOL 7* course. By examining natural disasters, this new course will help you develop an understanding of the basic scientific principles that govern our violent planet.

"Hurricane Katrina, the Great Sumatra Andaman Earthquake and the resultant tsunami—these are recent events that have increased public awareness of the awesome power of our Earth," says Foothill College Geology Instructor **Christopher DiLeonardo, Ph.D.** "To be good citizens of the planet, and be prepared to make important policy decisions of the future, everyone should have a basic understanding of the science behind the awesome and oftentimes dangerous forces of nature."

The course introduces you to a cross section of local and regional problems as well as catastrophic processes of global scale. You'll discuss the treatment of these topics in popular media, and their impact on public policy issues.

A member of the Foothill faculty since 1990, Dr. DiLeonardo also conducts ongoing research on subduction zones like the one that generated the Sumatra Andaman earthquake and tsunami in 2004. His most recent work includes research on fault systems on the margin of the Pacific Northwest that threaten coastal Oregon and Washington. He has worked as a researcher at the UC Santa Cruz Institute of Geophysics & Planetary Physics and as a research fellow at the NASA Ames Research Center in Mountain View.

For registration instructions, access [www.foothill.edu](http://www.foothill.edu) or call (650) 949-7325.

## Campus Construction Update

Foothill's new Campus Center Building continues the college's international reputation for its distinct Pacific-style architecture.

Measure E dollars continue to transform Foothill College and prepare the campus for future generations of Foothill students. The most dramatic construction project includes the new buildings that will house the college's Campus Center, Lower Campus Complex and Lohman Family Theater.

This fall, the college will proudly kick off its 50<sup>th</sup> anniversary celebration with the grand opening of these thoroughly modern new facilities. For now, student and campus visitors should be aware that construction continues to affect parking lots and campus walkways, so arrive early to locate parking, rooms and theaters.

Measure E is a 10-year plan to renovate existing facilities as well as construct new facilities at Foothill and De Anza colleges. Voters approved the passage of Measure E in 1999. In 2006, voters approved the passage of Measure C, which will provide the colleges with \$490 million in bonds to fund the improvements and maintenance of the Foothill-De Anza Community College District facilities over the next 30 years and its technology over the next 20 years. Funding for Measures C and E projects is generated from general obligation bonds.

Learn more about Measures C and E at [www.fhda.edu](http://www.fhda.edu).

## Visionary Donors Help Shape Foothill Health Care Professionals

Foothill College students **Sally Stallings** and **Lucia Blott** know that they owe a debt of gratitude to a Los Altos couple they will never meet. Though deceased, **Lola and Steve Kaider** had the vision to provide scholarships for Foothill students who are training for in-demand health care careers.

Stallings, who is completing Foothill's Radiologic Technology Program, and Blott, who is completing the Diagnostic Medical Sonography Program, are the 2006 recipients of the Kaider Scholarship President's Award, which includes a \$5,000 stipend. This year, 34 Foothill College students who are training for health care careers have been awarded more than \$86,000 from the Kaider Scholarship Fund.

To create a new scholarship or contribute to an existing award, call the Foothill-De Anza Colleges Foundation at (650) 949-6232.

### New Teacher-Training Program

## Find Out if a Career as a Math or Science Teacher Is Right for You

This spring, Foothill debuts a new teacher-training program which will place you in local kindergarten through 10<sup>th</sup> grade classrooms to observe, participate and assist a mentor teacher with daily instructional processes. The program also offers you a \$500 learning stipend.

By completing Foothill's math and science coursework as well as these innovative field experiences, you'll be better able to determine if you want to pursue a bachelor's degree in teaching as well as a California teaching credential in math or science.

To participate in this program, you must concurrently enroll in Foothill's *CHEM 41* and *CHEM 42: Class Practices* courses. You'll then meet weekly to study teaching math and science, assessment, methodology and the school environment. You'll also work as a teaching assistant for three hours a week for a total of 10 weeks; meet weekly with a mentor teacher to discuss the classroom experience; and earn two units of course credit.

Foothill's Chemistry Department is serving as the lead department for this program, but it's open to all students enrolled in Foothill math and science classes.

To learn more about the program, call (650) 949-7259.

### Variety of Business Classes

## Advance Your Career & Improve Your Marketability

Advance your career and improve your marketability by adding new skill sets to your professional repertoire. You can potentially increase your position in the workplace while you complete one course or fulfill requirements for an associate or bachelor's degree.

Get started by enrolling in Foothill's *BUSI 22: Principles of Business* course. This core class introduces you to the principles, functions, strategies, objectives and operations of businesses. You'll examine managerial decision-making processes and their relationship to consumers and stakeholders. By studying organizational structure and behavior; management styles; marketing; finance and accounting operations; information systems; and ethical and social responsibilities of corporations, you'll develop a sound understanding of small- and large-scale business and their impact on the global marketplace.

This spring, Foothill offers you a comprehensive selection of professional development and business-related classes, including:

- *ADVT 57: Principles of Advertising*
- *BUSI 18: Business Law I*
- *BUSI 19: Business Law II*
- *BUSI 53: Survey of International Business*
- *BUSI 57: Principles of Advertising*
- *BUSI 61: Personal Finance*
- *BUSI 91L: Business Information Processing*
- *BUSI 133: Home-Based Business*
- *BUSI 120: Dispute Resolution & Mediation*

## Nanomaterials: Building Blocks for the Next Generation

Learn how leading-edge industries are using the next generation of building blocks—nanomaterials—to transform products and services around the globe by enrolling in Foothill's five-unit *NANO 52: Introduction to Nanomaterials Science* course. You'll study the engineering and atomic structures of metals, ceramics, glasses, polymers and composites that have created the new materials used in aerospace, transportation, biomaterials, energy and other industries.

### New Course

## Materials & Engineering

Materials are the foundation for all engineering applications, and advances in materials and their processing are driving all technologies, including the broad areas of nanotechnology, biotechnology, energy and electronic information technology.

Develop your basic understanding of the chemical and physical principles that drive the nature and behavior of materials by enrolling in Foothill's new four-unit *ENGR 45: Property of Materials* course.

The lecture portion of the course meets Thursdays from 1:30–4:30 p.m. at Foothill College in Los Altos Hills. The lab portion of the course meets Tuesdays from 1:30–4:30 p.m. at the Material Science Facility at San Jose State University.

### Evening Exercise Classes

## End the Work Day with a Foothill Workout

Evenings are a great time to get your workout in.

Throughout the year, Foothill offers a variety of lifetime wellness courses that match your

ability level, interest and busy schedule. This spring, Foothill offers numerous fitness classes that begin after 5 p.m., including:

- Aquacize
- Basketball
- Cardio Kickboxing
- Circuit Training
- Core Strength
- Dance
- Golf
- Karate
- Pilates
- Spinning
- Swimming
- Tennis
- Yoga
- and more

You can also work out in the Foothill Wellness Center at your own pace when you enroll in the one-unit *HP 9* course. If you want to work out in the center, and receive a personalized fitness assessment, register for the one-unit *HP 9A* course. To work out in the center, receive a fitness assessment and work closely with a Foothill faculty member who will help you achieve your fitness goals, enroll in the one-unit *HP 68* course.

For convenience, you can enroll in a variety of physical education classes at Foothill's Main Campus in Los Altos Hills or Middlefield Campus in Palo Alto.

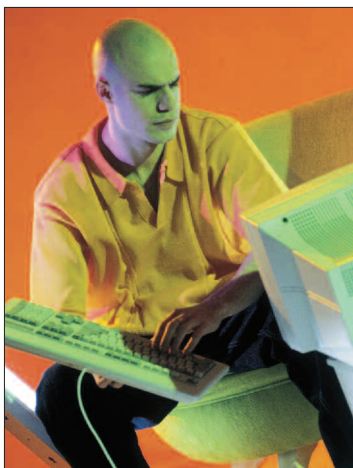

## Video Gaming Certificate Now at Foothill

Foothill now offers a 26-unit Video Gaming Skills Certificate Program. Upon completion of the program, you'll have a comprehensive background of the video gaming industry as well as a solid foundation in C++ programming.

Designed to prepare you for entry into a rigorous gaming development program at a four-year university, the Foothill program's courses include:

- CIS 55A: Introduction to Games;
- CIS 15A: Computer Science I: C++;
- CIS 15B: Computer Science II: C++;
- CIS 55B: Introduction to Game Design;
- CAST 70D: Three-Dimensional Modeling & Animation; and
- CAST 92A: Introduction to Adobe Photoshop.

For more information about the program, access [www.foothill.edu/ctis](http://www.foothill.edu/ctis) or call (650) 949-7236.

## Reading Women Writers

From emerging women writers to authors from a diversity of backgrounds to the great 18<sup>th</sup> century novelists Mary Shelley and Jane Austen, Foothill gives you the opportunity to immerse yourself in women's literature.

Enroll in the four-unit ENGL 22: *Women Writers* course to study works by experimental writers like Lydia Davis and prize-winning poet Louise Gluck. This course gives you a unique perspective of the writings that have shaped or hindered women's self-expression through the centuries.

The course is taught by Foothill Creative Writing Instructor **Marianne Villanueva**, a short-story writer and graduate of the Stanford University Creative Writing Program, who has published two collections of short stories.

Mary Shelley

Jane Austen

## Paid Internships in a Variety of Industries

Earn college units, work in the field that interests you and earn up to \$12,000 per year in a learning stipend when you participate in the Foothill-De Anza Internship Program.

Whether you already have a college degree or are currently working toward one, you can intern at a Silicon Valley corporation, public agency or the world-famous NASA Ames Research Center.

Use the program to develop the marketable skills in business administration, IT, graphics, Web design, psychological research, engineering, chemistry, aeronautics, astronautics, biology, GIS, software testing, human resources, payroll, accounting, multimedia and more.

Learn more about the program by attending an information session **March 14, April 11, May 9 or June 13 between 11 a.m. to 3 p.m.** in the Foothill Career Center (Room 1930). For more information, access [internships.fhda.edu](http://internships.fhda.edu) or call (650) 604-5560.

### The Right Training for the Right Career

## Foothill Has Popular Health Care Career Programs

Experts agree that the most stable careers now and in the future are related to the health care industry. Foothill College offers you a variety of hands-on career training programs that will prepare you for a rewarding and challenging health care career.

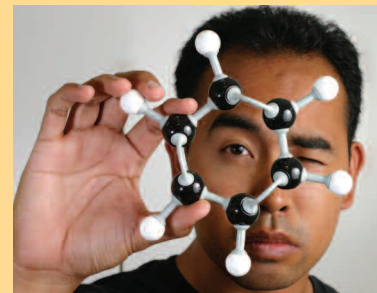

**At Foothill, you can train for a career in these fields:**

Adaptive Fitness Technician	Diagnostic Medical Sonography Special Education	Primary Care Associate Radiologic Technology
Biology	Paraprofessional	Radiation Therapy
Biotechnology	Emergency Medical Technology	Respiratory Therapy
Bioinformatics	Environmental Horticulture	Veterinary Technology
Dental Assisting	Paramedic	Veterinary Assistant
Dental Hygiene	Pharmacy Technician	

Find out if a career in health care is right for you by enrolling in Foothill's three-unit *AHS 200: Orientation to Health Care Careers* course. You'll get an overview of Foothill's health career programs, discuss trends in the health industry and be better prepared to make the decision to pursue a career in health care.

If you're looking to move into a rewarding health care career this year, Foothill offers you its challenging Pharmacy Technician Program, which can be completed in nine months. Upon completion of the program, you'll have earned a career certificate and be prepared to take the state licensure exam. To get an overview of this program, enroll in Foothill's *PHT 200L* course this spring.

Learn more about Foothill's health care programs, starting salaries for program graduates, application procedures and more at [www.foothill.edu/bio](http://www.foothill.edu/bio). For more information, e-mail [WestKerry@foothill.edu](mailto:WestKerry@foothill.edu) or call (650)-949-7538.

## Adaptive Fitness Technician & Special Education Career Programs

Rewarding careers for workers with the professional training to support aging Americans are on the rise. If your career goal is to make a difference and help mature or disabled adults, Foothill College offers you two exciting career programs—Adaptive Fitness Technician and Special Education Paraprofessional.

The Adaptive Fitness Technician (AFT) Program will train you to work with other medical personnel and provide patients with therapeutic exercise. This entry-level program is designed for the individual who is considering a career in rehabilitation, home health care or fitness.

Foothill also offers a Special Education Paraprofessional Program (SPED) that will help you develop the skills to pursue a career serving rehabilitation facilities, human service organizations, community centers, schools or care-giving facilities.

Learn more about both programs at [www.foothill.edu/al](http://www.foothill.edu/al).

## New Course Start Your Child Development Career This Spring

This spring, Foothill debuts the newest course in its popular Child Development Program. By emphasizing research and theory, the four-unit *CHLD 11: Affirming Diversity in Education* class gives you the opportunity to analyze gender, race, culture, abilities and disabilities, and social class from the child development perspective. You'll also examine the conceptual framework for children's cognitive, social and emotional responses to diversity.

All Foothill child development courses are excellent teaching and learning opportunities for parents, educators and students who are pursuing teaching careers. Foothill's Child Development Program offers a comprehensive curriculum that leads to an associate degree and/or specialty certificates, and prepares students to pursue rewarding careers.

For more program information, access [www.foothill.edu/bss](http://www.foothill.edu/bss) or call (650) 949-7322.

## The Voices of American Literature

Learn what makes American literature distinct by enrolling in the four-unit *ENGL 48C: Survey of American Literature from 1914 to the Present* course. Examine how selected writings reflect and challenge dominant notions of America and its national identity.

You'll read works by Depression-era authors, social protest writers, Beat poets, post-modern contemporary authors and multicultural writers.

## For Business & Pleasure Practical Spanish in a Fun Atmosphere

Learn essential Spanish language skills by enrolling in Foothill's 2.5-unit *SPAN 110: Practical Spanish* course, which meets at the Foothill Middlefield Campus in Palo Alto.

The class will help you develop the language skills you need to introduce yourself, express compliments, ask questions, understand and give instructions and discuss other topics.

## From the Ancient to the Contemporary What's Your Philosophy?

Examine wisdom, ideology and thinking, and study the nature of knowledge, reality and existence by enrolling in one of Foothill's many philosophy courses.

"Philosophy is not just some ancient set of curious ideas. It's a topic that is too important to be ignored," says Foothill Philosophy Instructor **Brian Tapia**, "I want my students to understand that philosophy directly relates to the very contemporary issues of meaning, reality, truth and value."

This spring, Foothill offers a range of online as well as on-campus philosophy courses, including ethics, critical thinking, social and political philosophy, introduction to philosophy, symbolic logic, and Eastern and Western comparative world religions.

## Hawaii In Depth Travel Destination Specialist Series

Travel professionals can add marketable specialty training to their resumes by enrolling in Foothill's one-unit *TC 81B: Destination Specialist Series—Hawaii* course.

The class examines the geographical, historical and cultural features of Hawaii. After completing the course, you'll be eligible to take the Travel Institute's exam and to earn a specialist certificate that is recognized throughout the travel industry.

For more information access [www.foothill.edu/bss/tc](http://www.foothill.edu/bss/tc) or call (650) 949-7263.

foothillglobalaccess.org

## Foothill Offers More Online Classes Than Any Other Bay Area Community College

Earn your associate degree or specialty certificate via the Internet when you enroll in online classes offered by the Foothill Global Access Program. Degrees and certificates available online include:

- Associate in arts degrees in anthropology, economics, general studies/social science, geography, history, psychology and sociology;
- Associate in science degrees in database developer, e-business, informatics, Web publishing and Web programming;
- Certificate of achievement in sociology;
- Career certificates for bookkeeping specialist, database developer, enrolled agent preparation program, informatics, tax specialist, Web programming and Web publishing; and
- Skills certificates for database developer, e-business, informatics, MCAD C# and open source databases, Oracle database administration, Web-based multimedia and Web publishing.

For details about online courses, degrees and certificates, access [www.foothillglobalaccess.org](http://www.foothillglobalaccess.org).

## ONLINE COURSE SPOTLIGHT

[www.foothillglobalaccess.org](http://www.foothillglobalaccess.org)

### Complete a Political Science Transfer Requirement

Finish your political science university transfer requirement by enrolling in the five-unit *POLI 1: Introduction to American Government & Politics* online course. You'll review the structure and function of the U.S. government, its constitution and political systems at the federal, state and local levels.

### Take Our Award-Winning Typography Class

The award-winning *GID 54: Typography* online course is a fun introduction to type fonts for the novice or experienced graphic designer. The four-unit class features dynamic hands-on tutorials, creative exercises and portfolio-quality projects. You'll learn to improve font designs for Web sites, desktop publishing, videos and more through font selection, readability, layout and use of color.

### Examine Russian & Eastern European Politics

Explore the vast political changes that have occurred in Russia and Eastern Europe by enrolling in Foothill's four-unit *POLI 5* online course. You'll analyze Hungarian, Polish, Czecho-Slovak and Russian historical and contemporary political institutions and political cultures.

### Investigate Employment Opportunities

Put a college class to work for you and your paycheck when you enroll in the three-unit *CRLP 71: Exploring Career Fields* online course. By emphasizing personal introspection and career research tools, the class addresses the critical factors for finding and keeping the job you want.

### Write an Effective Resume

Take your resume from "ho-hum" to "you're hired" by enrolling in the one-unit *CRLP 73: Effective Resume Writing* online course. Learn how to build a resume and cover letter that maximize contemporary marketing techniques and review the skill sets employers desire most from job seekers.

### Explore Global Tourism

Whether your interest in travel is career related or a pastime, make the most of travel planning by enrolling in the four-unit *TC 53: Global Tourism* online course. You'll study the geography, history, political and economic systems, religions, arts and cultures of key world-tourist destinations.

### MCSA, CCNA, CCNP, CCSP & More

## Foothill Is Your Specialty Certification Headquarters

If you're employed in the high-tech industry, you know that having specialty certifications is critical for your paycheck and resume. Foothill College offers you the classes that are designed to help you complete industry certificates. On average, it takes nine months to complete a Foothill certificate program.

Choose from these industry certificates at Foothill, including Cisco Networking CCNA, CCNP and CCSP; Microsoft Network Administration MCSA and MCSE; wireless networking CWNA and CWNP; Oracle administration and developer OCP; CompTIA A+ and Security +; Security CISSP; UNIX; and Linux.

Foothill offers in-demand technology courses, and the college is a VUE Testing Center. Many certification exams are offered by appointment and at substantial discounts to Foothill students. Learn more about Foothill's certificate classes at [www.foothill.edu](http://www.foothill.edu) or call (650) 949-7221.
