New Network Technology Series Focus on Mac OS X 10.5 Support Essentials

This quarter, Foothill debuts its **CNET 80Bo2** class, the first course in the college's new IT systems administrator series. Featuring a combination of lectures and hands-on lab experiences using Mac OS X 10.5, the course is designed for help-desk specialists, technical coordinators, service technicians and other professionals who support Mac OS X users in both business applications and networked computing.

The **CNET 80Bo2** course will also prepare you to take the Mac OS X 10.5 Support Essentials Exam, which upon successful completion, awards you the Apple Certified Support Professional (ACSP) 10.5 Certificate.

In subsequent quarters, Foothill will offer additional courses in this **CNET** series, including Mac OS X 10.5 Server Support; Mac OS X 10.5 Directory Services, Mac OS X 10.5 Deployment and Mac OS X 10.5 Advanced System Administration.

These courses will prepare you to take the five corresponding Mac OS X 10.5 IT exams, which upon successful completion, will grant you the Apple Certified Support Professional (ACSP) 10.5 Certificate, Apple Certified Technical Coordinator (ACTC) 10.5 Certificate and Apple Certified System Administrator (ACSA) 10.5 Certificate.

Learn more about this program at www.foothill.edu/ctis/. For registration instructions, call (650) 949-7325 or access www.foothill.edu.

Honoring a Decade of Innovation

After a decade of innovation and preparing Silicon Valley's teachers for the digital generation, Foothill College will celebrate the 10th anniversary of the Krause Center for Innovation (KCI) and its founders **Bill and Gay Krause** of Los Altos Hills. The celebration is **Saturday, Jan. 31, at 6 p.m.** at the Sharon Heights Golf & Country Club in Menlo Park.

Gay & Bill Krause

Gay has spent her entire career in education—as a teacher, counselor, assistant principal and principal in the Mountain View school system. Bill, who began his career at Hewlett-Packard, is the former CEO of 3Com Corporation and founder of several high-tech companies. Together with Foothill College, they have created and sustained the KCI, a leading-edge training resource for the region's K-12 teachers. To purchase tickets, call Foothill-De Anza Foundation Associate Director **Laura Woodworth** at **(650) 949-6232**.

A Rewarding Career in Just Nine Months Train to Work in the Biotechnology Industry

Biotechnology is a major growth industry in California, and more than one-third of the nation's public and private biotechnology enterprises are located in California. In just nine months, Foothill's popular Biotechnology Program can help you develop the skills and foundation knowledge to compete for a rewarding, challenging career in this growing industry. You'll learn leading-edge lab skills and the underlying theory that employers demand. Upon successful completion of the program, you will have earned a career certificate and can earn from \$35,000 to \$60,000 a year.

"Foothill offers you the most lab-intensive program in the area, which means Foothill graduates develop the hands-on skills required to begin working in the biotechnology field," says Foothill Biological & Health Sciences Interim Dean **Phyllis Spragge, M.A.** "You'll also train on the same equipment you would use in a biotechnology laboratory, which means you'll have the confidence to perform in any professional lab setting."

To start the nine-month Biotechnology Program, enroll in basic biology and chemistry courses to complete the program's prerequisites during Foothill's Winter and Spring quarters and Summer Session. We strongly recommend that you also meet with a Foothill counselor.

If you're not sure if a biotechnology career is right for you, enroll in the biotechnology short courses Foothill offers this winter. These five-week courses introduce you to biotechnology concepts through hands-on lab exercises. A variety of these short courses are offered each quarter.

Learn more about Foothill's Biotechnology Program at www.foothill.edu/bio/programs/biotech or call **(650) 949-7538**. To schedule a counselor consultation, call **(650) 949-7423**. For registration instructions, access www.foothill.edu or call **(650) 949-7325**.

New Course Got Ethics?

If you think ethics are missing from the decision-making process in business, government and other arenas, Foothill offers you the opportunity to study moral standards and how they affect professional conduct in the four-unit **BUSI 70: Professional & Business Ethics** course.

"With corporate ethics continuing to be a hot topic in today's world, students often ask how we teach business and professional ethics at Foothill College," says Foothill Business, Accounting & Law Instructor **Sid Davidson, Ed.D.**, who teaches the class. "We start with great respect for how families have instilled their sons and daughters with a strong sense of ethics. So, our role is not to 'teach' students about what is ethical; our role is to provide them with the tools to make choices, using an ethical framework for decision-making."

By focusing on the social and moral dilemmas encountered in business and industry in 2008, the class will analyze the ongoing conflicts between personal value systems, expected codes of behavior, and standard operating procedures in the workplace. Special attention will be given to an examination of the major philosophical schools of ethics, and how their specific theories may be applied to concrete business cases and contemporary management issues. For registration instructions, call **(650) 949-7325** or access www.foothill.edu.

A Rich Legacy
Study the First Peoples of North America by enrolling in the four-unit **ANTH 4** course that meets **Thursdays at 5:30 p.m.** at the Foothill Middlefield Campus in Palo Alto. This survey of American Indian societies and cultures is taught by **Mark Hylkema**, Santa Cruz district archaeologist for the California state parks. The course fulfills transfer requirements for UC and CSU systems.

Author Will Perform One-Night-Only Brian Copeland's *Not a Genuine Black Man on Stage*

Foothill College presents a one-night-only performance of *Not a Genuine Black Man*, the critically acclaimed one-man show featuring Bay Area author, comedian and commentator **Brian Copeland** **Friday, Jan. 9, at 7 p.m.** in the Smithwick Theatre at Foothill College. A book signing and complimentary reception follow the performance.

Brian Copeland

After a smash run off-Broadway, Copeland's *Not a Genuine Black Man* holds the record for the longest running solo show in San Francisco history. Based on the 2006 book of the same name, the show deals with the lingering effects of Copeland's childhood spent as an African American in the then white Bay Area suburb of San Leandro. The show's themes of isolation, racial identity and redemption strike a central nerve in audiences.

The *San Francisco Chronicle* called *Not a Genuine Black Man*, "...a beautiful mix of wry humor and heartbreak, indignation and inspiration, a singular story of extreme isolation that speaks to anyone who's ever felt out of place."

Tickets are \$25, general admission; \$20, student with identification. To purchase tickets, call **(650) 949-7360**.

Health Matters

Foothill Classes Help You Get Fit

With new treadmills and spin bikes plus a variety of weight machines, Foothill makes it convenient for you to achieve your fitness goals by working out in the Foothill Fitness Center. To workout in the center, which also features free access to personal trainers, enroll in the one-unit **PHED 45** course.

New this winter are treadmills that can be pre-programmed with your individual workout, new bikes that are both upright and recumbent, and big-screen TVs so you can watch the big game while you're burning calories.

Fitness Center hours are **Mondays through Thursdays, 6:30 a.m. to 7:30 p.m.; Fridays, 8 a.m. to 7:30 p.m.; and Saturdays, 8 a.m. to 2 p.m.** For registration instructions, call **(650) 949-7325** or access www.foothill.edu.

Classes in Popular Art Forms

Book Arts & Printmaking

Foothill's Graphic & Interactive Design (GID) Program offers many print and book arts courses that are taught by actively exhibiting artists and professional designers. The college's graphic arts studios are energized environments for both mastering craft and producing works of cultural expression.

Foothill's print and book arts courses use non-toxic printmaking processes and integrate traditional and digital media. This winter, learn more about these popular art forms by enrolling in one or several of the following courses:

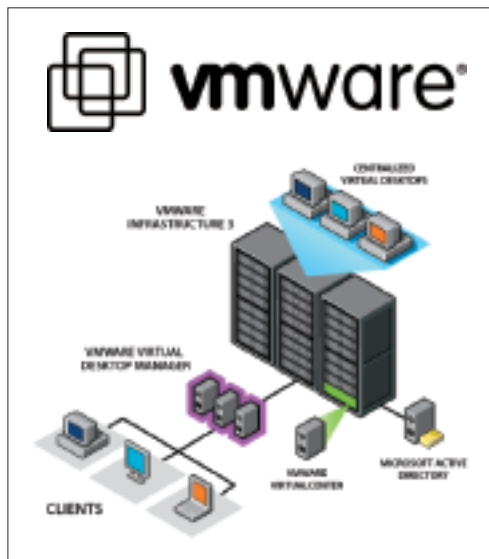

- In the four-unit **GID 90: Book Arts I** class, you'll learn construction and mounting skills for books, boxes and portfolios as well as traditional and non-traditional binding formats.
- Learn about the printmaking processes of relief, intaglio, screen printing and monoprinting in the four-unit **GID 38: Printmaking I** class.
- The four-unit **GID 74: Introduction to Digital Art & Graphics** course gives you basic instruction using the computer for painting, drawing, image processing, photo composites and typography.

Learn more about the GID Program at www.foothill.edu/graphicdesign/. For registration instructions, call **(650) 949-7325** or access www.foothill.edu.

Foothill Is the Country's First VMware Academy College

New VMware Server Virtualization Course Unveiled

If you work or intend to work in the high-tech sector, you know that server virtualization is a critical technology for enterprise as well as a solution for reducing energy and costs, increasing the

utilization and efficiency of hardware resources, and providing high availability for IT systems. By implementing server virtualization in a data center, an IT organization can increase its profits and productivity.

This quarter, you can take the first course that will kick off Foothill's new VMware server virtualization series by enrolling in the five-unit **CNET 80Bo1: VMware Infrastructure III-Install & Configure** course. Through lectures and hands-on lab assignments, you'll examine how server virtualization can transform a single, physical computer host into a vehicle that supports the execution of multiple virtual systems, each functioning as a virtual machine.

You'll learn to install the VMware ESX server, create virtualized switches and storage, create and manage virtual machines, establish access controls, perform resource monitoring and management, and establish high availability. This course will also prepare you to take the VMware Certified Professional (VCP) Exam.

Learn more about this program at www.foothill.edu/ctis/index.php. For registration instructions, call **(650) 949-7325** or access www.foothill.edu.

A Variety of Business Classes for Every Interest

Foothill Means Business

Whether you're completing a degree, building your resume or looking to advance to the next level in your career, Foothill offers you a variety of business classes to keep you current and competitive. Business courses are ideal for full- and part-time working adults as well as college students. The following courses featuring hot topics will be offered this winter:

- **BUSI 18: Business Law** is an introduction to legal regulations that apply to business. You'll examine California law applicable to contracts, tort negligence and the Uniform Commercial Code. Contemporary legal issues will also be discussed as well as social forces and the law, agencies for enforcement, and court systems and procedures.
- **BUSI 22: Principles of Business** examines the functions and strategies of business objectives and operations. You'll study corporate and small business managerial decision-making processes and their relationship to consumers and shareholders.
- **BUSI 59: Principles of Marketing** can increase your business by helping you take advantage of Web 2.0 advertising products, Google AdWords and Internet analytics.
- **BUSI 95: Entrepreneurship/Small Business Management** gives you the tools and instruction you need to write an effective business plan and manage a small business.

For more business course information, access www.foothill.edu/bss. For registration instructions, call (650) 949-7325 or access www.foothill.edu.

On Campus, Online or Hybrid

Design Sound for Simple Home Movies or Complex Productions

If you're a video or sound artist and want to improve the quality of your work or add sound effects to anything from simple home movies to more extravagant productions, Foothill offers you the four-unit **MUS 81B: Sound Design for Film & Video** course. From the basics of film and video sound, to adding sound

Foothill's 30-station IDEA Lab.

effects and synchronizing them with events on the screen, this course is perfect for any level of videographer.

Offered in a hybrid format, you can attend the class on campus in the 30-station IDEA Lab, which has everything you need to produce high-quality video and audio; or take the class entirely online and use your home equipment for class assignments; or mix and match on-campus and online coursework to best fit your schedule. Students enrolled in the class have full, daily access to the IDEA Lab.

Learn more about this class and Foothill's popular Music Technology Program at www.foothill.edu/musictechnology. For registration instructions, call (650) 949-7325 or access www.foothill.edu.

2nd Annual Foothill Business Plan Competition Is Your Business Plan Ready for Silicon Valley?

If you see yourself in a leadership role, excel in collaborative situations, have a unique business idea and want to get hands-on experience as a rainmaker in the Silicon Valley business community, get real return on your intellectual investment and compete in the second annual Foothill College Business Plan Competition.

With a scholarship fund of \$10,000 to share among the top five teams, awards will be presented to competitors from technology, retail, arts, sciences and service industries as well as non-profit groups. Individuals and teams of up to four members are invited to participate.

To compete, you must attend one information workshop with Foothill Business Instructor **Glenn Violett, M.A.** Workshops meet at Foothill in Room 3015 on the following dates:

Wednesday, Jan. 14, at 4 p.m.;

Friday, Jan. 16, at noon;

Tuesday, Jan. 20, at 4 p.m.; or

Friday, Jan. 30, at noon.

Presented by the Foothill College Entrepreneur Center, the contest concludes May 21 when finalists will pitch their plans to a distinguished panel of Silicon Valley business experts.

For more information, e-mail ViolettGlenn@foothill.edu or call (650) 949-7577.

Cooperative Work Experience

Earn More Money, Earn More Units

At Foothill College, your job or volunteer work will also earn you college units. Foothill's Cooperative Work Experience (CWE) Program gives you the opportunity to improve your work skills and earn college credit.

Designed especially for working adults, the program offers significant benefits for students who participate in work-based learning, including finding competitive jobs faster and earning more than their classmates during the first year of employment. According to a recent study, students who participate in programs like CWE have higher average annual earnings than their classmates in the first three years after graduation.

Foothill adds value to your professional resume by offering CWE courses every quarter. Learn more at www.foothill.edu/coop or call (650) 949-7205. For registration instructions, call (650) 949-7325 or access www.foothill.edu.

Popular Program for a Growing Profession

More Child Development Classes

Foothill's Child Development Program continues its popularity. The program is ideal for current teachers looking to advance in their profession as well as students pursuing child development as their first career. This winter, Foothill offers several child development courses, including **CHLD 82: Planning Creative Dramatics**, **CHLD 68: Professional Growth Opportunities for Leaders** and **CHLD 190X: Early Childhood Leaders Workshop Series**.

The one-unit **CHLD 82** course gives you an introduction to creative dramatics for the child, including how to implement techniques such as dramatic play, puppetry, role playing and acting out stories. You'll learn techniques for promoting children's sensitivity to and use of various dramatic art forms, and discuss the role of the parent and teacher in facilitating children's explorations.

With just three Saturday meetings, the one-unit **CHLD 68** course is an ideal source of professional support, networking and resources for directors, head teachers, program coordinators and other leaders in programs for young children. You'll meet other local early childhood leaders and learn about best practices in your profession. The class meets **Saturdays, Jan. 10, Feb. 7 and March 7, from 9 a.m. to 12:40 p.m.**

Presented in a workshop format, the one-unit **CHLD 190X** class will cover three hot topics, including *Team Building When the Team Keeps Changing*, *The Nurturer's Guide to Setting Limits* and *Would I Want to Work for Someone Like Me?* This class meets **Saturdays, Jan. 10, Feb. 7 and March 7, from 1 to 4:40 p.m.**

For more program information, access www.foothill.edu/bss/childdevelopment or call (650) 949-6950. For registration instructions, call (650) 949-7325 or access www.foothill.edu.

New Specialty Certificate

Study Computer Literacy in Its Many Forms

Foothill College now offers a 12-unit specialty certificate program in essential computing skills, including Mac and Windows operating systems, Microsoft Office, Internet searching, Web page design, Google Tools, blogs and wikis, and child Internet safety.

The Computer Literacy Certificate Program includes FastTech courses that are offered online, or meet one to two Saturdays at the Krause Center for Innovation (KCI) at Foothill College. Each class is hands-on, practical and provides essential skills for your computing needs. FastTech classes are designed for Silicon Valley teachers, but all students are welcome to enroll.

Certificate classes offered Winter Quarter include:

CIS 50A: Introduction to Computers	5 units
LINC 66C: Searching & Researching the Internet	2 units
LINC 95A: Child Safety, Internet Ethics & Cyberlaw for Educators	2 units
LINC 70A: Web Page Design	0.5 unit
LINC 64: PowerPoint	0.5 unit
LINC 66A: Google Tools	0.5 unit
LINC 66B: Blogs & Wikis	0.5 unit

Learn more about the new certificate at www.foothill.edu/kci or call (650) 949-7680. For registration instructions, call (650) 949-7325 or access www.foothill.edu.

Get Creative

Adding Movement & Motion

Transform Web sites from static to animated, add motion to videos and show animations on YouTube by enrolling in the four-unit **GID 84: Adobe Flash Motion Graphics** course.

Taught by Foothill's award-winning Graphic & Interactive Design Instructor **Carolyn Brown, M.A.**, the class will help you create animation, motion graphics and motion typography to maximize the communication potential of your Web sites and digital graphic designs. You'll learn animation techniques and have the opportunity to use those techniques to create short motion design exercises and longer expressive animations. This course is offered online, giving you maximum schedule flexibility. For registration instructions, call (650) 949-7325 or access www.foothill.edu.

Spend Spring in Paris

Plan Now to Study Abroad

Immerse yourself in a different culture and earn college units when you participate in the Foothill-De Anza Campus Abroad Program. Foothill-De Anza faculty lead these excursions and teach the program's required courses.

Paris, France • May 1 through June 13

A city renowned for its wealth of historical, artistic and cultural riches, Paris is your classroom for this exciting six-week program. Experience a language and culture that span the Middle Ages through the 21st century in a city that draws people from around the world.

You'll study art, culture and the French language while attending on-site lectures at museums and cultural sites throughout the City of Lights.

You'll live in student residences, and attend classes at the ACCENT Paris Center and at locales throughout the city. The center also organizes a number of social and cultural activities for program participants as well as an extended weekend visit to the famous island of Mont Saint-Michel, itself a UNESCO World Heritage Site, and the walled city of Saint Malo.

For more information, including curriculum, cost and application procedure, call (650) 949-7614 or access www.foothill.edu.

foothillglobal access.org

Foothill Offers More Online Classes Than Any Other Bay Area Community College

Earn your associate degree or specialty certificate via the Internet when you enroll in online classes offered by the Foothill Global Access Program. Degrees and certificates available online include:

- Associate in arts degrees in anthropology, economics, general studies/social science, geography, history, music technology, psychology and sociology;
- Associate in science degrees in database management, e-business, informatics, Web publishing and Web programming;
- Certificate of achievement in sociology;
- Career certificates for bookkeeping specialist, database developer, e-business, enrolled agent preparation, informatics, music technology, tax specialist, Web programming and Web publishing; and
- Skills certificates for database developer, e-business, informatics, MCAD C#, open-source databases, Oracle database administration, Web-based multimedia and Web publishing.

For details about online courses, degrees and certificates, access www.foothillglobalaccess.org.

ONLINE COURSE SPOTLIGHT

www.foothillglobalaccess.org

Keep Your Career Choices Competitive

Foothill offers you three career-related online classes to help you become the job candidate employers want. These one-unit classes will give you the competitive advantage in today's tough job market. Work with the latest tools for career research and planning in the *CRLP 71: Career Exploration* class. The *CRLP 73* course will help you design and effectively place your resume to land a job interview with potential employers. Enroll in the *CRLP 74: Effective Interviewing Skills* class to receive the preparation you'll need for job interviews, including pre- and post-interview strategies.

American Idols & Guitar Heroes

You've written a song, but now what? Find out how to get your start in the music publishing business from a pro who can give you real-world answers by enrolling in the four-unit *MUS 59: Applied Songwriting* online class. The course will introduce you to the many types of music publishers; what to expect from recording contracts and revenue streams; pros and cons of self-publishing; red flags, entertainment law and performance rights organizations; and what the future holds for the music publishing industry. The course is taught by published songwriter **Jim Bruno**, whose works have been recorded by Shawn Colvin, Chuck Prophet, Mary Lou Lord, Cliff Eberhardt, Thad Cockrell and Laurie MacAllister. Bruno has signed and negotiated numerous music-publishing agreements and currently has a publishing agreement with Universal Music.

Writing Proposals, Grants, Reports, Manuals & More

Learn to apply your writing skills in professional settings by enrolling in the five-unit *ENGL 3: Technical Writing* online course. You'll learn to recognize the needs of different audiences and produce writing for a variety of formats, including proposals, formal reports, manuals, letters, resumes, instructions, Web sites and others. The class will also help you write for the needs of your audience by producing writing that takes into consideration different contexts, purposes, goals and formats. Clear and effective presentation of information, logical organization, clear focus and accurate editing are emphasized. An ideal personal and professional development option, the course is designed for working professionals as well as students who are completing university-transfer requirements.

Beginning, Intermediate & Advanced Playwriting

Express yourself by enrolling in the four-unit *THTR 5: Playwriting* online course. Authors of all ability levels will write four plays, and master the techniques for writing professional-quality plays that succeed on stage.

Building a Collaborative Learning Community

Don't let important words such as collaboration, learning and community lose their meaning. Instead, team up with other students to study the power and potential of working collaboratively with children, families and colleagues in a meaningful and purposeful way. By enrolling in the four-unit *CHLD 68Z01W: Special Projects in Child Development* online course, you'll participate in a new education experiment as we build a learning community online by working collaboratively.

Come to the Islands...Online

Learn about the exotic Caribbean islands by enrolling in the two-unit *TC 82A: Destination Specialist* online class this winter. The course is designed for travel industry professionals and travel enthusiasts. You'll study the geographical, historical, political and cultural features of the region, and its major tourism areas. The class emphasizes professional sales strategies and techniques, suggested itineraries and industry resources.

AutoCAD: What Your Ideas Have Been Waiting For

From conceptual design and visualization tools to transforming your design modules into a set of construction documents, you can complete a variety of AutoCAD courses online this winter, including *CAST 63A: Introduction to Computer-Aided Drafting Using AutoDesk AutoCAD*; *CAST 63B: Advanced Computer-Aided Drafting Using AutoCAD Software*; and *CAST 64A: Introduction to AutoDesk Mechanical Desktop Software*. In addition to improving your creative process and productivity, each class will give you the opportunity to import and export files from other industry CAD programs.

Careers in the Visual Arts

Explore career possibilities and professional opportunities in the visual arts, graphic design and interactive design industries by enrolling in the two-unit *GID 60: Careers in the Visual Arts* online course. Taught by award-winning Graphic & Interactive Design Instructor **Carolyn Brown, M.A.**, this class introduces you to a variety of graphic design-related professions and the various roles for artists within these professions. You'll learn about numerous opportunities for visual artists to become creators and communicators in contemporary media. Additionally, you will examine the career paths of professional designers and artists to better understand how artists can grow in their careers and professional endeavors.
