## Basketball Club

**Purpose:** Foothill Basketball Club hopes to let students have an opportunity to enjoy the fun basketball brings us. Having students exercise and socialize together. Taking a short break and a quick stretch from daily school life. There are many students at our school who are interested in basketball. Many of them need a place to play at and need friends to play with. Many students including myself have classes that conflict with PE classes' schedule. This club can offer students a platform to meet more schoolmates who have the same interest of basketball.

## Dental Hygiene Club

**Purpose:** The dental hygiene program is a Bachelor of Science program with 24 students in each class. Admission is very competitive with many pre-requisites. It is a full-time program with little time for outside work. We are requesting funds to help serve Foothill College students that we see in our clinic and who could not otherwise afford the cost of dental hygiene care. These services include, but are not limited to, dental cleanings and x-rays.

Each quarter our clinic sees an average of 40 to 50 Foothill College students. The amount the clinic received last year, 2021-22 will be depleted by June. The clinic provides dental hygiene care for our students and communities in need of dental hygiene care but are unable to afford it because of their limited incomes. The ASFC has contributed the entire fee for student's dental hygiene services in the past, including cleanings and x-rays.

The amount per student varies from \$30 for a cleaning up to \$80 for cleaning and full mouth x-rays, while these services would cost a student over \$250 in a private dental practice. If our budget is granted, the ASFC funds will benefit both the students who are unable to afford dental hygiene care and the students of the Dental Hygiene Program. The students at Foothill College make - up more than 25 % of the Foothill College's Dental Hygiene Clinic patient population.

Without ASFC's support our population of patients will diminish, and the students of Foothill College will be denied dental health care. The importance of this request is based on the historical fact that in years when students were required to pay half the fee, there was a 50 % decline in Foothill student patients. Although the fee is minimal students have expressed their inability to pay because of low incomes.

## Healthcare Outreach Program

**Purpose:** The main goal of the Healthcare Outreach Program is to navigate driven students seeking a career in the healthcare field by assisting them in finding volunteer or job opportunities here in the Bay Area to advance their medical background. In doing so, they can gain work experience while working towards their end goal of working in healthcare. As a community of pre-medical and pre-dental students, we sympathize with how difficult it can be getting started with anything healthcare related, and that is why we are committed to assisting students in any way possible to make the process as efficient as possible. We are proudly affiliated with various programs and clinical sites here in the Bay Area to browse what might be the best fit, and we are here to help you every step of the way. With our own experience, we strive to help you get one step closer to your dreams.

## Women in Business

**Purpose:** The purpose of the club is to create a platform for females who have interests in business to share their ideas. We also provide a chance to foster professional development and provide career-networking opportunities. We will have successful women as guest speakers, to provide our club members with motivation and guidance. This organization is a safe place where females and other underrepresented gender groups discuss contemporary business issues.
