- ❖ **Resolution to Approve the Foothill College Meta Major Model:** On February 1st, CCC held a first read of a resolution which, if approved, would support moving forward with the proposed Foothill College Meta Major Model. The group welcomed guests from the Guided Pathways Team for the discussion, who shared details about the campus-wide collaborative process used to gather feedback from students, faculty, and staff, which informed the groupings of certificates and degrees within the seven Meta Majors. As explained by our guests, approval of the proposed model would solidify the groupings within the Meta Majors, for the first few years, after which time the college will reflect on what has worked and what hasn't, and discuss making adjustments to the model. (The titles of the Meta Majors are still being finalized.) To view the draft resolution, please contact your CCC Reps. If you have any questions or feedback about the proposed model, please feel free to reach out to anyone on the GP Team: Isaac Escoto, Natalie Latteri, Amy Leonard.
