

# FLOOD RISK IN BAY AREA

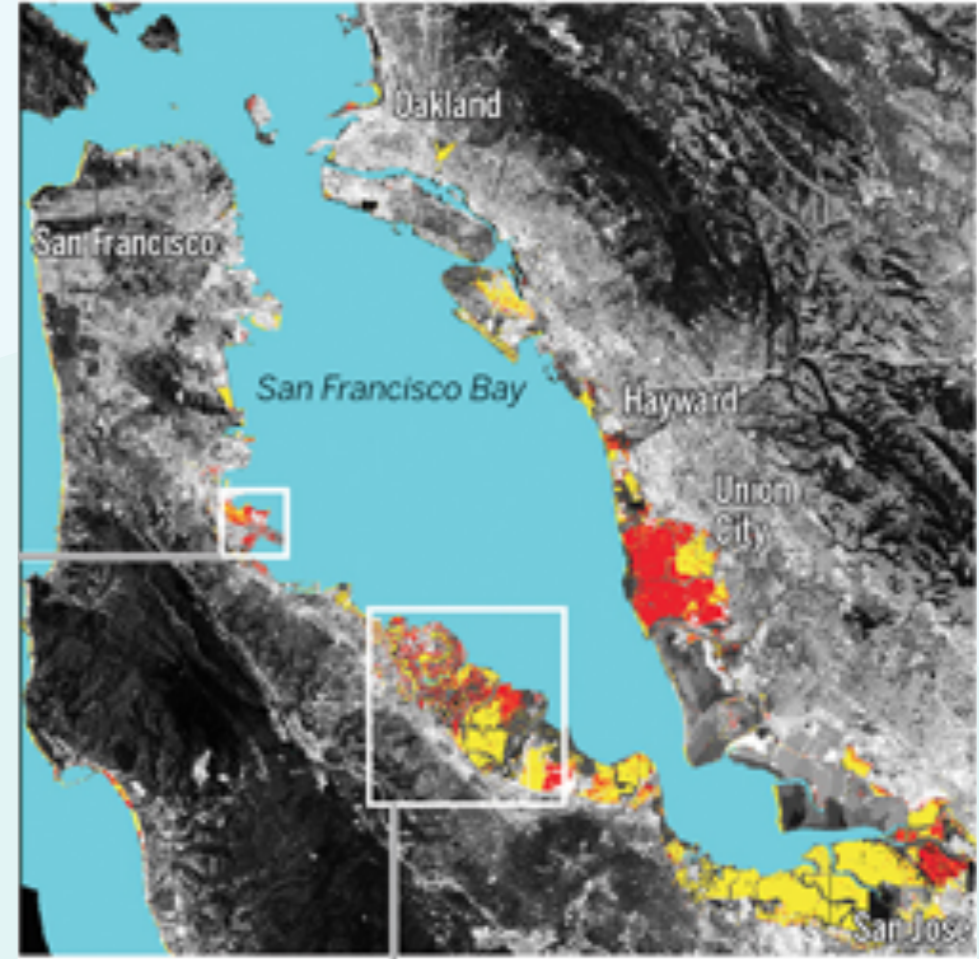

## AND HOW TO BE PREPARED

Do you know that due to global warming....

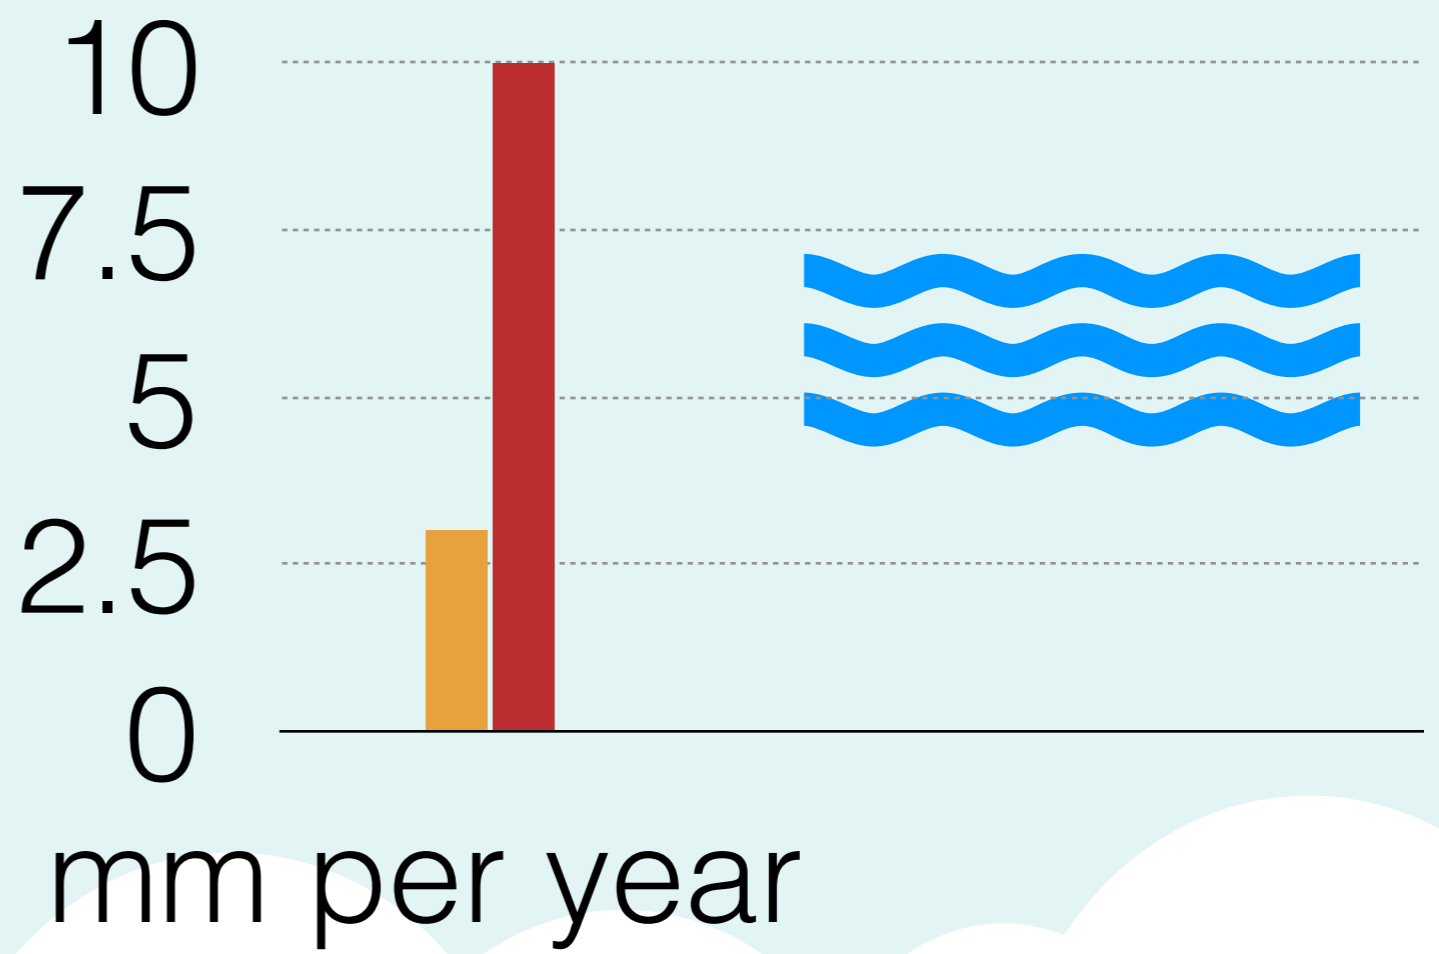

...We experience drier summers, but also heavier rainfalls in winter?

and, that...

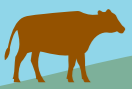

...Sea levels rise by 3mm and areas built in mud deposits sink by 10mm each year?

WHO AND WHAT DO YOU THINK WILL BE AFFECTED?

Animals and wildlife

\$1.7 trillion of Californian coastal economy and work wages of \$662 billion will be affected.

At least 1 million people live in the floodplain.

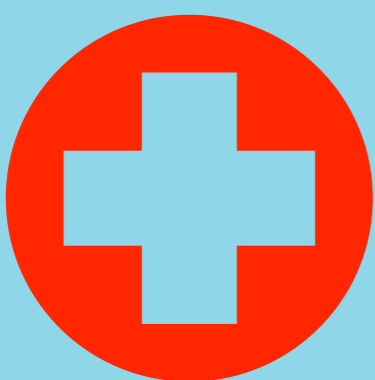

Around \$130 Billions worth of structures are in the threat zone

873 miles of coastal roads will be impacted

BE PREPARED!

- 1) Have emergency supplies, first-aid kits ready.
- 2) Know your local evacuation roads.
- 3) Secure all valuable items in your home.
- 4) During the flood, turn off electrical and gas appliances.
- 5) Evacuate at the proper time.
- 6) Avoid going through the flood waters, it might be hazardous.
