Creating Guidelines for Artificial Intelligence Use in Classes

Teaching with Technology Committee Discussion
November 1, 2024

What is Our Scope?

Do we want to add language to Foothill Student Affairs webpage that calls out generative AI use in classes?

- ○ ASCCC Resource document examples: Spring 2024
- ○ Faculty are responsible for spelling out acceptable uses of AI in their classes;
- ○ Absent faculty guidelines in the course syllabus, AI usage in any space in the course is treated as plagiarism.

What is Our Scope?

Do we want to create a menu of acceptable use guidelines (ASCCC)?

- o This would increase transparency for students
- o Faculty would have a guideline or starting point to expand on in their syllabus
- o Draft AI Use Policy Input.docx
