FOOTHILL COLLEGE 60TH ANNIVERSARY

Foothill College 60th Anniversary

Changing Lives Through Service to Others for 60 Years

Foothill College is proud to celebrate its 60 anniversary, which allows us the opportunity to educate, celebrate, and commemorate.

Foothill College has identified community, global consciousness, and responsibility as one of its four core competencies and for the past 60 years, has served larger community through various service projects such as the Global Medical Brigades, March for Science, and The Physics Show. These projects become opportunities for students to learn about the world while developing their leadership skills.

In celebration of our 60 anniversary, the college is launching a service leadership initiative which will create a common thread among existing activities on campus, while increasing the number of such activities college-wide and ensuring that each activity identifies with intentionally the student leadership learning outcomes.
