Overall, it is my view that the program is exemplary. Any student who is part of the program independent of their faith, color, religion, gender - they all succeed. I think this program is a testament to meeting equity goals. In addition, there was one question that confused me because an option, which I included, seemed to be missing. B/5. Did the program identify actions for improvement or recommendations based on feedback from the advisory board? I answered: "The program was able to take actions or investigate the recommendations and received the needed support to proceed - Meets the Standard" However, I felt that the program took whatever actions it could and investigated recommendations but did not receive the support from the college it needed. In fact, in 2015-2016 the college forced the program to unexpectedly move from its home base to another campus. In the process the college removed its Program Coordinator of 10+ years to one who was not intimately familiar with the program. These factors were not conducive to positive results in FTES. I am hopeful that Measure G will help the college receive the necessary funding to support Pharmacy Technology now and in the future.
