## A. Program Information

### Program Mission Statement

Please enter your mission statement here.

**Answer:**

The program's mission is to provide an outstanding educational opportunity for students in their preparation for a career as respiratory therapists; and to meet or exceed the needs of the college's service area for highly qualified respiratory therapists. The program's primary function is to meet the educational and career goals of our diverse student population through training, education, and preparation with state-of-the-art equipment and with qualified instructors who currently work in the field. The program supports the college's mission statement and our diverse and multicultural communities.

### Program Level Student Learning Outcomes

Please list the program level student learning outcomes.

**Answer:**

PLO No. 1: Upon successful completion of the curriculum for the Respiratory Therapy Program the student will have acquired the necessary knowledge, skills and values for the practice of Respiratory Therapy. PLO No. 2: At the completion of this program students will be able to demonstrate appropriate critical thinking skills, time management skills, communication skills and technical skills necessary to provide competent respiratory care in multidisciplinary care settings.

## Enrollment Variables and Trends

Enrollment Trends  
Biological & Health Sciences - Respiratory Therapy-FH

	2014-15	2015-16	2016-17	2017-18	2018-19	5-yr %Inc
Unduplicated Headcount	139	143	164	140	116	-16.5%
Census Enrollment	867	816	866	970	807	-6.9%
Sections	41	40	43	50	41	0.0%
WSCH	1,758	1,416	1,512	1,507	1,412	-19.7%
FTES (end of term)	117	94	101	100	94	-19.9%
FTEF (end of term)	3.5	3.5	3.6	4.2	3.7	5.0%
Productivity (WSCH/FTEF)	500	405	416	359	382	-23.5%

Printed on 2/26/2020

## B. FTES - Enrollment Trends

1. In the data table above, what does the FTES data trend indicate?

- the data trend shows an increase in FTES
- the data trend shows a decrease in FTES
- the data trend shows no change in FTES

Discuss the factors that would help the college understand these trends and whether there are tangible reasons for the increase or decrease.

**Answer:**

FTES data shows consistency with the exception of 2014-2015 data which is an outlier. Census enrollment data shows 5-year % decrease of 6.9%. The program is restricted from accepting more students than are allowed by the accrediting agency and it is also restricted by the availability of clinical placement spots. Multiple factors such as competition from other schools, hospital census, and internal challenges at our affiliates have led a to a decrease in the number of clinical spots granted for our students.

2. Looking at the data trend, has the faculty/staff discussed proposed actions to stabilize/increase FTES?

- yes
- no

If yes, describe the proposed actions for stabilizing/increasing the FTES.

**Answer:**

The program continues to work towards acquiring new clinical sites/affiliates. If more clinical positions are procured the initial enrollment for the program can return to 30. Currently we have limited enrollment to 27 due to lack of clinical positions available to support our students.

## C. Sections - Enrollment Trends

1. In the data table above, what does the data trend indicate about the number of sections offered?

- the data trend shows an increase in sections
- the data trend shows a decrease in sections
- the data trend shows no change in sections

If the data trend shows an increase or decrease in sections, explain why the number of sections increased or decreased.

**Answer:**

The program continues to offer the required sections to achieve an AS in Respiratory Therapy. Additionally we offer an Introductory class that is open to all students. The course was not offered during Summer 2018 and 2019. In the future we anticipate offering the course all quarters. The new certificate program, Interventional Pulmonology Assistant is currently in its second cohort and should have a positive impact on enrollment.

If the data indicates an increase in sections with a decrease in FTES, explain why the number of sections increased while FTES decreased.

**Answer:**

The number of sections remains constant, the decrease in FTES is addressed under the FTES section.

## D. Productivity - Enrollment Trends

1. In the data table above, what does the data trend indicate about the productivity number?

- the data trend shows the productivity number increased
- the data trend shows the productivity number decreased
- the data trend shows no change in the productivity number

If the data trend shows an increase or decrease in productivity, explain why the productivity increased or decreased.

**Answer:**

Program productivity has declined but it is anticipated that the addition of the interventional pulmonology assistant program will help offset this decrease. The productivity data for the respiratory therapy program does not take into account AHS 50A, AHS 50B, AHS 60A, AHS 60C and AHS 50C. Data for these courses should be included and factored in when calculating productivity. Additionally the lab sections for RSPT 50A, 51C and 61A were re-evaluated and classified as Category 1 lab loads.

2. Does the data trend suggest changes are necessary to improve productivity?

- yes  
 no

If yes, describe the proposed actions for stabilizing/increasing the productivity number.

**Answer:**

Changes that could increase productivity would include the addition of clinical sites and placement opportunities for students. Our current DCE, Lisa Hills has been working towards expanding our clinical affiliates and has added three new sites. The new IPA program is in its second cohort and there has been growing interest. A proposal has been submitted to the American Association for Respiratory Care to present at the next National convention. If approved this opportunity could help spread awareness for the program and increase enrollment. Including the AHS courses that are part of the program could also increase productivity.

## E. Enrollment by Student Demographics

### Enrollment Distribution

## by Gender

	2014-15		2015-16		2016-17		2017-18		2018-19	
	Enr	Percent	Enr	Percent	Enr	Percent	Enr	Percent	Enr	Percent

### a. Enrollment by Gender

The following questions concern enrollment distribution by gender.

1. In the data table above, what does the data trend indicate about program enrollment by gender?

**Females**

- the data trend shows an increase in the female enrollment rates
- the data trend shows a decrease in the female enrollment rates
- the data trend shows no change in the female enrollment rates

**Males**

- the data trend shows an increase in the male enrollment rates
- the data trend shows a decrease in the male enrollment rates
- the data trend shows no change in the male enrollment rates

If the data trend shows a change in male or female enrollment, explain why there was a change.

**Answer:**

The program acceptance is based on lottery. The overall number of female to male accepted students represent the ratio of female to male applicants we currently have each year.

2. Does your program differ in the percentage of males to females, in this most recent year, compared to the College? (College 2018-19 = 52% Female, 48% Male)

- yes
- no

If the data indicates a lack of gender parity in your program as compared to the college percentages, what is the source of that disparity and what proposed/planned actions is the program taking to achieve parity?

**Answer:**

The program acceptance is based on lottery. The overall number of female to male accepted students represent the ratio of female to male applicants we currently have each year.

### Data Table for Enrollment by Gender of Declared Majors

[https://foothill.edu//programreview/prg-rev-docs/fh-programreview2019\\_20enroll-by-gender-and-declared-major.pdf](https://foothill.edu//programreview/prg-rev-docs/fh-programreview2019_20enroll-by-gender-and-declared-major.pdf) ([https://foothill.edu//programreview/prg-rev-docs/fh-programreview2019\\_20enroll-by-gender-and-declared-major.pdf](https://foothill.edu//programreview/prg-rev-docs/fh-programreview2019_20enroll-by-gender-and-declared-major.pdf))

Click the link to view Enrollment by Gender of Declared Majors data table and respond to the questions below.

3. In the data table above, what does the data trend indicate about enrollment (headcount) by gender of declared majors in the program?

**Females**

- the data trend shows an increase in the female enrollment of the declared major
- the data trend shows a decrease in the female enrollment of the declared major
- the data trend shows no change in the female enrollment of the declared major

**Males**

- the data trend shows an increase in the male enrollment of the declared major
- the data trend shows a decrease in the male enrollment of the declared major
- the data trend shows no change in the male enrollment of the declared major

### b. Enrollment by Ethnicity

The following questions concern enrollment distribution by ethnicity.

1. In the data table above, what do the data trends indicate about program enrollment by ethnicity?

**African American**

- the data trend shows an increase in the African Americans enrollment rates
- the data trend shows a decrease in the African Americans enrollment rates
- the data trend shows no change in the African Americans enrollment rates

**Asian**

- the data trend shows an increase in the Asian enrollment rates
- the data trend shows a decrease in the Asian enrollment rates
- the data trend shows no change in the Asian enrollment rates

**Filipinx**

- the data trend shows an increase in the Filipinx enrollment rates
- the data trend shows a decrease in the Filipinx enrollment rates
- the data trend shows no change in the Filipinx enrollment rates

**Latinx**

- the data trend shows an increase in the Latinx enrollment rates
- the data trend shows a decrease in the Latinx enrollment rates
- the data trend shows no change in the Latinx enrollment rates

**Native American**

- the data trend shows an increase in the Native American enrollment rates
- the data trend shows a decrease in the Native American enrollment rates
- the data trend shows no change in the Native American enrollment rates

**Pacific Islander**

- the data trend shows an increase in the Pacific Islander enrollment rates
- the data trend shows a decrease in the Pacific Islander enrollment rates
- the data trend shows no change in the Pacific Islander enrollment rates

**White**

- the data trend shows an increase in the White enrollment rates
- the data trend shows a decrease in the White enrollment rates
- the data trend shows no change in the White enrollment rates

**Decline to State**

- the data trend shows an increase in the Decline to State enrollment rates
- the data trend shows a decrease in the Decline to State enrollment rates
- the data trend shows no change in the Decline to State enrollment rates

2. Does your program differ in enrollment distribution among ethnic groups, in this most recent year, compared to the College enrollment by ethnic group? (College 2018-19 = 5% African American, 30% Asian, 5% Filipinx, 26% Latinx, 0% Native American, 1% Pacific Islander, 29% White, 4% Decline to State)

- yes
- no

If yes, looking at the ethnic groups above, explain changes identified over the past five years for each ethnic group (address each ethnic group by bullet point).

**Answer:**

Compared to the college's ethnic distribution: African American enrollment has been consistently between 9-10% compared to FH 5% Asian enrollment has increased to an all time high of 38% compared to FH 30% Filipinx enrollment has declined over the last few years to a low of 11% compared to FH 5% Latinx has increased over the last 2 years with 25% and 24% compared to FH 26%, this trend is more in-line with the college Native American and Pacific Islander trends are similar to those of FH 0% and 0% compared to FH 0% and 1% White enrollment has been steadily declining from 37% 5 years ago to 17% for the 2018/2019 compared to FH 29%.

3. Do the data trends suggest programmatic actions are necessary to address disparities in enrollment by ethnicity, including low enrollment within a particular group?

- yes
- no

If yes, describe the proposed actions for addressing disparities in enrollment by ethnic group within the program.

**Answer:**

Low enrollment by Native American and Pacific Islander students should be addressed. Outreach to those communities with high representation should be included in any proposed plan to address this problem.

## F. Student Course Success

### Course Success Rates by Unit

Course Success Biological & Health Sciences - Respiratory Therapy-FH										
	2014-15		2015-16		2016-17		2017-18		2018-19	
	Grades	Percent	Grades	Percent	Grades	Percent	Grades	Percent	Grades	Percent
<b>Success</b>	835	96%	787	96%	833	96%	909	94%	783	97%
<b>Non Success</b>	11	1%	17	2%	13	2%	39	4%	10	1%
<b>Withdrew</b>	21	2%	12	1%	20	2%	21	2%	14	2%

## Course Success for African American, Latinx, and Filipinx Students

	2014-15		2015-16		2016-17		2017-18		2018-19	
	Grades	Percent	Grades	Percent	Grades	Percent	Grades	Percent	Grades	Percent
<b>Success</b>	275	94%	268	95%	351	97%	465	93%	344	97%
<b>Non Success</b>	8	3%	10	4%	6	2%	24	5%	5	1%
<b>Withdrew</b>	10	3%	3	1%	6	2%	10	2%	6	2%
<b>Total</b>	293	100%	281	100%	363	100%	499	100%	355	100%

## Course Success for Asian, Native American, Pacific Islander, White, and Decline to State Students

	2014-15		2015-16		2016-17		2017-18		2018-19	
	Grades	Percent	Grades	Percent	Grades	Percent	Grades	Percent	Grades	Percent
<b>Success</b>	560	98%	519	97%	482	96%	444	94%	439	97%
<b>Non Success</b>	3	1%	7	1%	7	1%	15	3%	5	1%
<b>Withdrew</b>	11	2%	9	2%	14	3%	11	2%	8	2%
<b>Total</b>	574	100%	535	100%	503	100%	470	100%	452	100%

Some courses may continue to be listed but no longer have data due to renumbering or because the course was not offered in the past five years.

Printed on 2/26/2020

### a. Student Course Success

1. In the data table above, what does the data trend indicate about overall course success?

- the data trend shows an increase in the students' course success percentage
- the data trend shows a decrease in the students' course success percentage
- the data trend shows no change in the students' course success percentage

If the data trend shows an increase, decrease, or no change in students' course success percentage, explain what programmatic factors led to such a trend.

**Answer:**

The program's course completion and achievement is well above that of the institution. The program has very low attrition with > 97% overall course success rate, and without any discernible differences between targeted and non-targeted groups.

2. Do the data suggest changes are necessary to improve student course success?

- yes
- no

If yes, describe the proposed actions for stabilizing/increasing the student's course success percentages.

**Answer:**

N/A

### b. Student Course Success by Student Groups

1. In the data table above, what is the observed trend for course success rates for African American, Filipinx, and Latinx student groups?

- the data trend shows an increase in the course success percentage
- the data trend shows a decrease in the course success percentage
- the data trend shows no change in the course success percentage

2. In the data table above, what is the observed trend for course success rates for Asian, Native American, Pacific Islander, White, and Decline to State student groups?

- the data trend shows an increase in the course success percentage
- the data trend shows a decrease in the course success percentage
- the data trend shows no change in the course success percentage

3. In the data table above, is there a course success gap between African-American, Latinx, Filipinx student groups and Asian, Native American, Pacific Islander, White, Decline to State student groups?

- yes
- no

If the data trend shows an increase or decrease in course success gap, explain why the course success gap increased or decreased.

<b>Answer:</b>
N/A

4. Does the data suggest that changes are necessary to decrease student course success gap between African-American, Latinx, Filipinx student groups and Asian, Native American, Pacific Islander, White, and Decline to State student groups?

- yes
- no

If yes, what actions are program faculty and staff engaged in to decrease the course success gap between African-American, Latinx, and Filipinx student groups and Asian, Native American, Pacific Islander, White, and Decline to State student groups?

<b>Answer:</b>
N/A

## G. Student Course Success by Demographics

### a. Student Course Success by Gender

The following questions concern student success rates by gender.

### Course Success Rates by Group

		2018-19							
		Success		Non Success		Withdrawn		Total

Some courses may continue to be listed but no longer have data due to renumbering or because the course was not offered in the past five years.

Printed on 2/26/2020

1. In the data table above, what does the data indicate about program course success by gender?

**Females**

- the data trend shows an increase in the female course success rates
- the data trend shows a decrease in the female course success rates
- the data trend shows no change in the female course success rates

**Males**

- the data trend shows an increase in the male course success rates
- the data trend shows a decrease in the male course success rates
- the data trend shows no change in the male course success rates

If the data trend shows an increase or decrease in the male or female student course success percentages, explain why the percentage increased or decreased for both.

**Answer:**

N/A

2. Do the data suggest changes are necessary to improve female or male student course success percentage rates?

- yes
- no

If yes, describe proposed actions to stabilize/increase the course success rates for either male or female.

**Answer:**

The female to male percentage differences in success remain constant with equal or 1% point difference with the exception of year 2016/2017 where there was a 3% point difference between males and females, with 98% vs. 95% respectively.

## b. Student Course Success by Ethnicity

These questions concern the course success rates of students by ethnicity.

1. In the data table above, what does the data trend indicate about program student course success by ethnicity?

### African Americans

- the data trend shows an increase in the African Americans course success rates
- the data trend shows a decrease in the African Americans course success rates
- the data trend shows no change in the African Americans course success rates

### Asian

- the data trend shows an increase in the Asian course success rates
- the data trend shows a decrease in the Asian course success rates
- the data trend shows no change in the Asian course success rates

### Filipinx

- the data trend shows an increase in the Filipinx course success rates
- the data trend shows a decrease in the Filipinx course success rates
- the data trend shows no change in the Filipinx course success rates

### Latinx

- the data trend shows an increase in the Latinx course success rates
- the data trend shows a decrease in the Latinx course success rates
- the data trend shows no change in the Latinx course success rates

### Native American

- the data trend shows an increase in the Native American course success rates
- the data trend shows a decrease in the Native American course success rates
- the data trend shows no change in the Native American course success rates

### Pacific Islander

- the data trend shows an increase in the Pacific Islander course success rates
- the data trend shows a decrease in the Pacific Islander course success rates
- the data trend shows no change in the Pacific Islander course success rates

### White

- the data trend shows an increase in the White course success rates
- the data trend shows a decrease in the White course success rates
- the data trend shows no change in the White course success rates

### Decline to State

- the data trend shows an increase in the Decline to State course success rates
- the data trend shows a decrease in the Decline to State course success rates
- the data trend shows no change in the Decline to State course success rates

If the data trend shows a decrease in any of the student ethnic groups' course success rates, explain why the percentage decreased for each (address each ethnic group by bullet point).

<b>Answer:</b>
N/A

2. Do the data indicate a gap in course success for any of the ethnic groups as compared to other groups?

- yes
- no

If yes, describe the reasons for the gap in course success.

<b>Answer:</b>
N/A

3. Do the data suggest that changes are necessary to improve program course success equality?

- yes

no

If yes, describe the proposed actions for stabilizing/improving the course success by ethnicity.

**Answer:**

N/A
