

 FOOTHILL COLLEGE

PRE

STEM

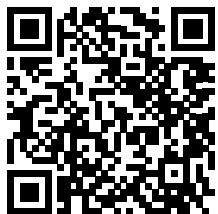

SUMMER INSTITUTE

July 18 – August 4, 2022

In Person at Foothill College
12345 El Monte Road, Los Altos Hills

Explore your interest in STEM within a supportive community.

Pre-Stem Summer Institute is a free three-week, in-person program. Our goal is to increase the participation of students traditionally underrepresented in STEM, including women, first-generation and low-income individuals, and those from historically marginalized groups. Join us for workshops on college and math readiness and work on social impact projects in data science. No experience necessary!
