Foothill College 2014-15 Comprehensive Program Review
Program Review Committee Feedback Winter 2016, May 5, 2016
Dean – Biological and Health Sciences (BHS)

</div>

FINAL

Thank you for your time and effort in completing the Comprehensive Program Review this year. We know it is a lot of work but we hope it has been helpful. Thank you for your ongoing efforts to improve on behalf of our students. The program review allows others throughout the college to learn about your work and how it supports the college mission, educational master plan, and equity goals.

The Program Review Committee read and discussed each comprehensive program review during a series of meetings in winter 2016. Our feedback is outlined below. We would be happy to meet with the department if there are any questions.

Commendations / Strengths

PRC commends the division for the successful use of GoogleDocs for curriculum review and for taking the initiative to find a tool that worked well for the division (an example of the Foothill Innovation spirit!).

PRC appreciates the clear rationale provided for staffing requests.

PRC applauds the division on the development of the Public Health AD-T.

PRC applauds all of the division's community service activities and outreach (national/international); they are inspiring examples.

Suggestions for Improvement
PRC suggests continued early collaboration with other divisions in the development of the Public Health AD-T.

PRC suggests the division work with the Office of Instruction to further articulate the rationale for the resource request related to the program coordinators, including a detailed outline of the responsibilities and time commitments.

Recommendation – Green *
The program is recommended to continue in the regular program review cycle.

* reviewed by PRC without VPI comments
